

## Beyond 2020 Framework (post-SAICM) Development Process

- In preparation for the Fifth Session of the International Conference on Chemicals Management, discussions began on a framework for proper management of chemicals and waste beyond 2020 (Beyond 2020).
- Due to the impact of the spread of COVID-19, the scheduled dates of meetings/conference after 2020, when the post-SAICM was originally expected to be adopted, have been significantly delayed. The post-SAICM is scheduled to be adopted in September 2023.

February 2017	First Meeting of the Intersessional Process (IP1)
March 2018	Second Meeting of the Intersessional Process (IP2)
April 2019	Third Meeting of the Open-Ended Working Group (OEWG3)
October 2019	Third Meeting of the Intersessional Process (IP3)
October 2020 – February 2021	Virtual Working Group (VWG) <span style="border: 1px solid black; border-radius: 10px; padding: 2px 10px;">Impact of the spread of COVID-19</span>
August – September 2022	Fourth Meeting of the Intersessional Process (IP4.1) in Romania - Preparation of a consolidated version of the negotiating text based on IP3 and VWG discussions, etc.
February – March 2023	Resumed Fourth Meeting of the Intersessional Process (IP4.2) in Nairobi
September 2023	Resumed Fourth Meeting of the Intersessional Process (IP4.3) in Bonn Fifth Session of the International Conference on Chemicals Management (ICCM5) in Bonn - Summary of SAICM, and adoption of the next framework

## Summary of Results of SAICM Resumed Fourth Meeting of the Intersessional Process (IP4.2)

- A consolidated version of the negotiating text for the next framework was prepared at the Fourth Meeting of the Intersessional Process (IP4), and a resumed meeting was held for further discussions.

[Date] Monday, February 27, 2023 – Friday, March 3, 2023

[Venue] Nairobi, Kenya

[Summary]

- Discussions on three main themes

- Theme 1: Vision, strategic objectives and targets, and measurement framework

- Theme 2: Implementation programmes, issues of concern (provisional), contributions of diverse sectors, progress management, etc.

- Theme 3: Capacity building, financial considerations (funding, private-sector involvement, etc.)

- Subjects other than the above three themes were discussed at the meetings of “Friends of Co-chairs” (FOCC) convened by the co-chairs and the informal dialogues under the FOCC.

- FOCC: Structure of the document, introduction, principles and approaches

- Informal dialogues: Elements of the resolution at ICCM5

- The document was not finalized at IP4.2. IP4.3 will be held for two days just before ICCM5 in September 2023.

## Discussion Progress: Structure of Consolidated Version of Negotiating Text

---

- At the SAICM Resumed Fourth Meeting of the Intersessional Process (IP4.2), the structure of the SAICM document was organized as follows.

### I. Introduction

### II. Vision

### III. Scope

### IV. Principles and Approaches (More details in the annex)

### V. Strategic Objectives and Targets

Five proposed strategic objectives and targets, etc. for them

### VI. Mechanisms to Support Implementation

National implementation, [International and] regional cooperation and coordination, and enhanced sectoral and stakeholder engagement

### VII. Issues of Concern (provisional title) (More details in the annex)

### VIII. Capacity Building

### IX. Financial Considerations

Integrated approach (mainstreaming, private-sector involvement, and dedicated external financing), establishment of and engagement in multisectoral partnership, and financing the secretariat

### X. Institutional Arrangement

Functions of ICCM, Bureau and Secretariat

### XI. Taking Stock of Progress (More details in the annex)

### XII. Revising and Updating the Framework

# Enhancement of Multisectoral Engagement

---

- Measures to enhance the engagement of various sectors are being considered in the next framework.

## Industrial world

- Strengthen engagement across **value chains** (clarification of roles)
- **Due diligence** to ensure a certain levels of chemicals and waste management.
- Support strategic objectives and targets, and commit to innovation, training, etc.

## Public sector, etc.

- Safe and sustainable chemicals and waste policies, contracts and initiatives at workplaces and in local communities, procurement policies that prioritize **protective initiatives**, etc.

## Health sector

- Use the WHO Chemicals Road Map as a tool to facilitate cross-functional collaboration and identify specific activities.

## Labor sector

- Protect all workers from hazardous chemicals and waste throughout supply chains.
- Integrate initiatives at workplaces such as conclusion and implementation of ILO standards, etc.

## Financial sector

- Develop policies, guidance and recommendations to promote investment in safer chemicals management through **development of sustainable loans and financing standards, etc.**
