

Technology Transfer

- Parties decide to establish a ~~an intergovernmental~~ consultative group of technical and scientific experts on technology transfer under the SBSTA.
- The group will:
 - Facilitate the exchange ~~and review~~ of information by creating an information clearinghouse and enhancing linkages between existing regional and other technology information centers;
 - Advise SBSTA on further actions to be taken.
 - Focus on ways and means to address the barriers for technology transfer as identified in the IPCC special report on technology transfer
 - Be composed on the basis of equal ~~geographical~~ distribution between Annex I and non-Annex I parties.
 - Decisions of the group shall be taken by consensus.
 - Conclude its work with a final report to SBSTA at its seventeenth session.
- SBSTA will review the group's work ~~on a regular basis~~, consider its advice and if necessary request the COP to take any further action, ~~including inter alia programs and priorities for financing of activities~~ with regard to the above activities.
