

○G20 持続可能な成長のためのエネルギー転換と地球環境に関する関係閣僚会合コミュニケ
(令和元年6月16日) (抄)

4. We realize that, in order to accelerate the virtuous cycle and lead transformations to a resilient, inclusive, and sustainable future, emphasis should be placed on collecting wisdom from around the world, mobilizing finance and investment, and improving business environments to encourage technological innovation and **behavioral change** [技術的イノベーションや行動変容を促すようビジネス環境を改善することに重点が置かれるべきであることを認識する]. We promote solutions, including nature based solutions that have multiple benefits.

○持続可能な成長のためのエネルギー転換と地球環境に関する G20 軽井沢イノベーションアクションプラン (令和元年6月16日) (抄)

<Actions to collect wisdom from around the world to encourage innovation>

6. We seek to enhance international cooperation in relevant existing fora and encourage, in a holistic manner, research, development and deployment of innovative technologies and approaches including air and water related technologies, **behavioral science for life-style change** [ライフスタイルの変容のための行動科学], bioenergy, Carbon Capture Utilization and Storage (CCUS), clean vehicles, deep renovation and Net Zero Energy Building, demand-side management, energy access technologies, energy efficiency technologies, energy storage, hydrogen, grid digitalization, low carbon technologies, nature-based solutions, renewables, resilient and sustainable cities and communities with integration of technologies, and resource efficient technologies, depending on national circumstances.
