# JVCKENWOOD Corporation

	<b>Companies' approach</b>
① <b>Background and purpose of accounting</b>	<ul style="list-style-type: none"> <li>JVCKENWOOD addresses escalating climate change as one of the prioritized material issues (“Materiality”) in our sustainability strategies.</li> <li>In order to promote eco-friendly corporate management, we aim to calculate entire GHG emissions and identify categories where we should focus on reduction based on Basic Environmental Policy.</li> </ul>
② <b>Utilization of accounting results</b>	<ul style="list-style-type: none"> <li>The accounting results are disclosed on the websites and others as part of the non-financial information.</li> <li>The results are used to reinforce cooperation in environmental activities with our business partners/relevant parties in the supply chain.</li> </ul>
③ <b>Benefits of accounting</b>	<ul style="list-style-type: none"> <li>Accounting determines the categories where we need to concentrate on reducing emissions and reveals the activities that we should make efforts for.</li> <li>We can demonstrate our position toward environmental activities to internal and external audiences and share awareness for activities to cut emissions.</li> <li>We can use the results to answer inquiries related to Scope 3 from external entities and questions for various institutional surveys.</li> </ul>
④ <b>Internal system for accounting</b>	<ul style="list-style-type: none"> <li>The Sustainability Management Office will take leadership in collecting data from related departments, complying with the scope of Environmental Policies to account for emissions.</li> </ul>

## JVCKENWOOD Corporation

	<b>Companies' approach</b>
<p>⑤ <b>Efforts to reduce supply chain emissions</b></p>	<ul style="list-style-type: none"> <li>• Reducing the number of components and facilitating local procurement in production regions, we address to clarify the activities related to GHG emission reduction for raw material procurement.</li> <li>• We work on to reduce emissions associated with logistics when shipping products.</li> <li>• We aim to reduce emissions in the use stage by developing energy-saving products and others.</li> </ul>
<p>⑥ <b>Issues in supply chain emissions accounting</b></p>	<ul style="list-style-type: none"> <li>• FY2019 accounting scope in other country is consisted of our production bases only. In order to drive emission reduction activities further in the supply chain, we take actions to widen the scope of accounting to more organizations in our group.</li> <li>• In order to improve the precision of accounting results, we aim to collect more detailed primary data to reflect in the accounting results.</li> <li>• Especially, our challenges are emissions calculation method in Category 1, and the calculation method of products' power consumption/assumed hours of use in Category 11.</li> </ul>
<p>⑦ <b>Other</b></p>	<ul style="list-style-type: none"> <li>• The right mark symbolizes “JKSustainability” – sustainability activities promoted by JVCKENWOOD.</li> <li>• We uphold our corporate vision of “Creating excitement and peace of mind for the people of the world” and contribute to realize sustainable society as “Transform into a customer value creator”.</li> </ul> <div style="text-align: right;">  <p><b><i>JKSustainability</i></b></p> </div>
