

# DNAs and Participants

– What will help the realization of CDM projects? –

September 11, 2005

Fifteenth Asia–Pacific Seminar on Climate  
Change

Mariko Fujimori

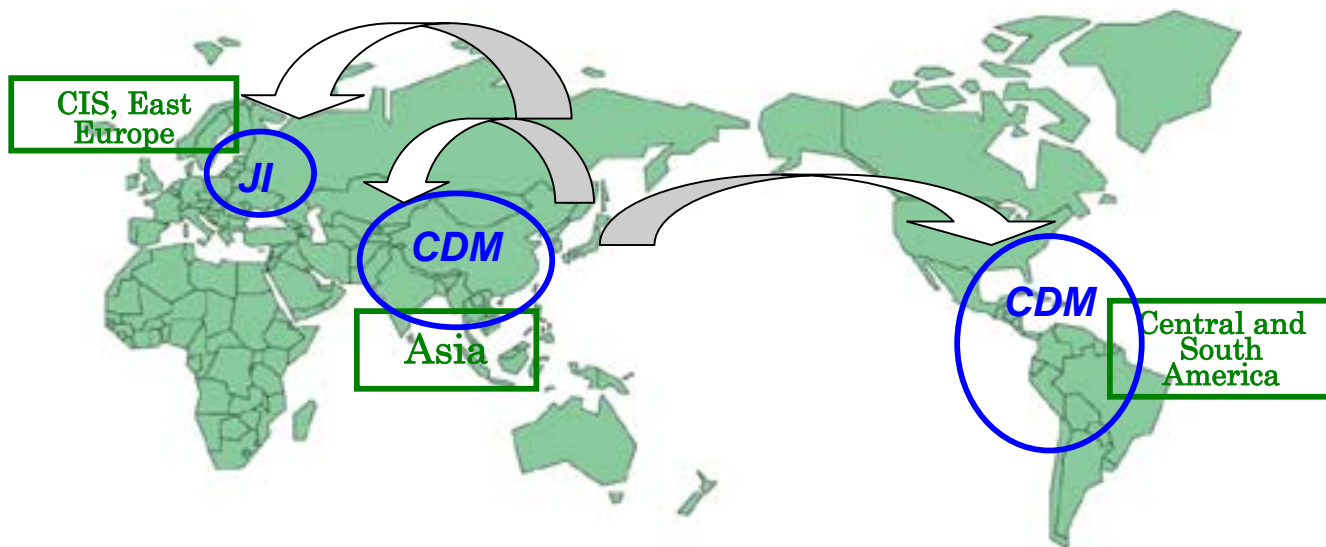

Pacific Consultants Co., Ltd.

- Self introduction (briefly)
- CDM/JI Acceleration Programme (2004)
- Major outputs and findings
- DNAs and participants in host countries
- FAQ from Japanese companies
- What will help the realization of CDM projects?

- Fifteen host countries in Asia, Central and South America, and CIS/East Europe.
  - ◆ China, India, Indonesia, Malaysia, Philippines, Thailand, Vietnam,
  - ◆ Brazil, Chile, Mexico,
  - ◆ Bulgaria, Czech, Poland, Romania, and Ukraine

- Discussion with DNA, major private sectors in host countries, and Japanese private entities in those host countries.
- Capacity building in accordance with the needs of each host country, and collect information of most potential CDM/JI project.
- 96 project information, including 80 PINs (project idea note) were collected from 11 countries.

*Several characteristics of DNAs and Japanese private entities can be listed as follows:*

## ■ Organization/direction of DNA

- ◆ Criteria for the sustainable development,
- ◆ New business/National resource,
- ◆ Approval system and actual performance, and
- ◆ Coordination among related organizations.

## ■ Type of CDM projects

- ◆ Priority types/fields,
- ◆ Approval methodology/new methodology, and
- ◆ Awareness/incentives for private entities in host countries.

## ■ *Concerning the host country :*

- ◆ What will be the most frequent barrier to realize a CDM project in a certain country?
- ◆ Which host country will be most friendly or have easy access system?
- ◆ What will be the critical issues for the negotiation with host country's DNA?
- ◆ What will be the merit and demerit to implement a CDM project in certain country/field?

## ■ *Concerning the project :*

- ◆ How can we collect data and information essential for the baseline setting and monitoring?
- ◆ How long will it take for the host country's approval?
- ◆ How long will it take for the EB's approval?
- ◆ How much will be the CER from our project?

# What will help the realization of CDM projects?

パシフィックコンサルタンツ株式会社

- Basic information for private entities in both sides, concerning issues in FAQ,
- One stop shop to help access to data and information, including PIN,
- Business matching scheme for most probable and/or priority projects,
- Promote diversity of project types (e.g., energy efficiency, transport, etc.), and
- Develop incentives or support scheme to promote adaptation-related CDM projects.

Thank you very much.
