

How do we realize these co-benefits?

1

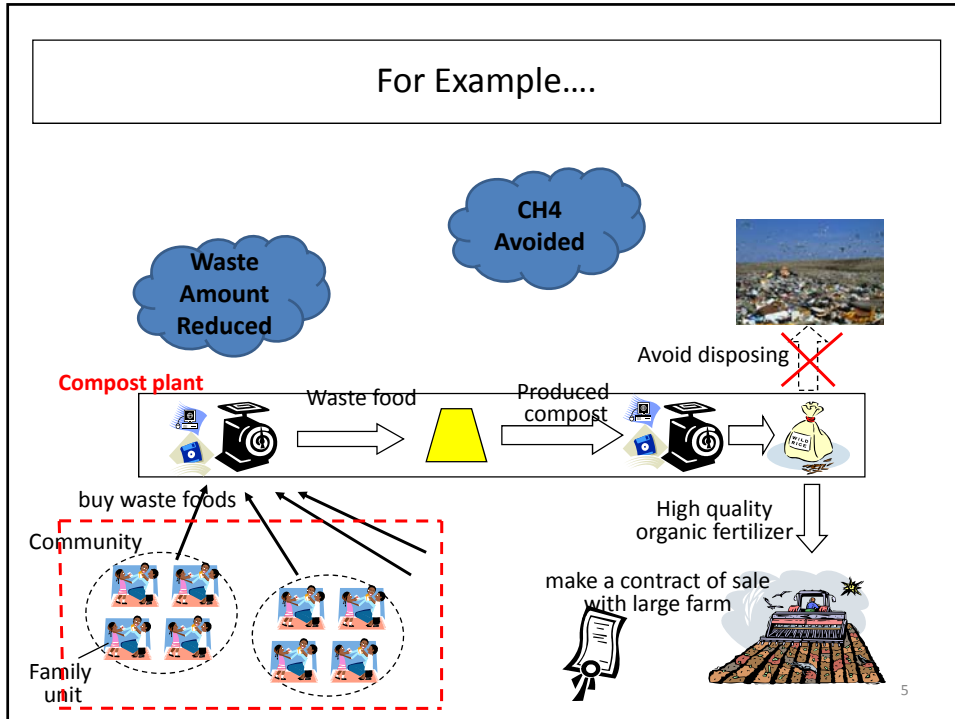

Basic Idea of Project Incentive Scheme (by utilizing CDM)

Elements that enable us to realize co-benefits?

4

Building upon inter-city cooperation between Surabaya and Kitakyushu City --- Feasibility Study and Capacity Building

This component require additional efforts, and as a purely commercial-based activities, business may not be attracted.

6

Necessary Arrangement

(already planned, and under consideration)

- Feasibility Studies (data collection, methodologies, and other analysis, and PDD preparation)
- A New Business Model (roles of stakeholders, and financial flow)
- Capacity-Building (not CDM-specific, but more on waste management , such as waste segregation)
