OVERVIEW

6th International Symposium on Environmental Endocrine Disrupters will be held for three days, beginning December 3rd 2003, at Sendai International Center under the sponsorship of Ministry of the Environment.

Dates: December 3 (Wednesday) to December 5 (Friday), 2003

Venue: Sendai International Center

Aobayama, Aoba-ku, Sendai, Miyagi 980-0856, JAPAN

Organizer: Ministry of the Environment, Government of Japan

Language: Japanese and English

Objectives (draft):

- To share information concerning initiatives taken by various countries of the world for dealing with endocrine disrupters-related issues;
- To discuss the direction of future research on endocrine disrupters through international cooperation; and
- To provide an opportunity for an exchange of opinions on chemicals that various stakeholders (e.g. general public, NGOs, technical experts, industry and government) may have.

Speakers (tentative):

Approximately 50 speakers (researchers, administrative officers) will be invited both domestically and abroad.

Scheduled Programs :

December 3: Program open to the public

December 4 and 5: Program for experts

Notes: Further information regarding the programs and participation registration is planned to be released in this August.
