# SESSION III

## Good Practices for the Implementation of the Basel Convention

# IMPORT

- Importer acquires Registration ID from EMB (Importer should have necessary Environmental Permits)
- Importer requests for Import Clearance
- EMB processes request (including Notification from Exporting Country) and issues Import Clearance
- Importer imports materials, submits IC to Bureau of Customs

# EXPORT

- Exporter informs EMB of intent to export HW
- EMB notifies (Competent Authority) Country of Destination and Transit
- EMB issues Export Clearance after receiving appropriate reply from Country of Destination and Transit
- Exporter submits EC to Bureau of Customs and ships wastes
