

Session 4:  
**Toward Environmentally Sound Management of Secondhand EEE  
and E-Waste**

**Plans for coming E-Waste Inventory  
PHILIPPINES**

**GERI GERONIMO R. SAÑEZ**  
Chief, Hazardous Waste Management Section  
Environmental Quality Division  
**Environmental Management Bureau**

Workshop 2009 of the Asian Network for Prevention of Illegal Transboundary Movement of Hazardous Waste  
Kuala Lumpur, Malaysia, 20-22 January 2009

Project Title:

**Environmentally Sound Management of Waste  
Electronic and Electrical Equipment (WEEE) in the  
Philippines**

Implementing Agency:

**Environmental Management Bureau (EMB) - DENR**

Proposed Budget:

**USD 50,000 = PHP 2,000,000** (assume 1 USD = 48 PHP)

Proposed Project Duration:

**One (1) year only = twelve (12) months**

# Expected Outputs

## Policy Study on WEEE

- Review and evaluation of existing policies on WEEE
- Development of criteria for classification of WEEE (this shall include, among others, the type of WEEE to be regulated)
- Initial inventory of sources of WEEE including data on import-export of used & end-of-life EEE destined for reuse, repair, recycling and disposal (inventory shall include information on import and local generation, characteristics, physical forms and usability.....)

## Expected Outputs

- Life Cycle Analysis (LCA) of WEEE including assessment of problems of exposure to toxic substances concerned (e.g., Pb, Hg, Cr, As, PBB, PBDE, etc.)
- Identification of environmental sound technologies or processes for refurbishment, recycling and final disposal of used and end-of-life EEE including recommendations on technically and financially viable technologies appropriate to local conditions

## Capacity Building

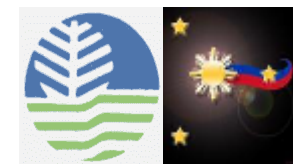

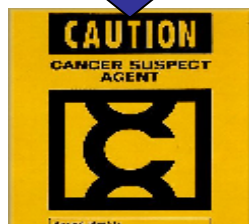

- Training-workshop for government officials (local and national) and representatives from partner institutions, organizations and civil society on ESM of WEEE

## Preparation of Guidebook on the Environmental Sound Management (ESM) of WEEE and other Information, Education and Communication (IEC) materials on WEEE
