

## Technical Information Sheet

<b>1. Name of technology</b>	Truck with detachable container (Arm-Roll)
<b>2. Type of technology</b>	This truck has two functions, the detachable container function and a dumping function (when a container for dumping is used), and can efficiently collect, transport, and unload cargo by itself.
<b>3. Description of technology</b>  Objective, application, characteristics, delivery record, and price of technology	<p><b>[Objective and application of the technology]</b>                  Cargo can be stacked on the container, providing improved transportation efficiency.</p> <p><b>[Characteristics of the technology]</b>                  Multiple containers can be used by the same truck. Different types of containers are available according to the type of cargo (refuse, liquid, soil, etc).</p> <p><b>[Delivery record]</b>                  Domestic: Local governments (including their subcontractors), industrial waste disposal companies, construction companies, and recycling companies, etc.                  Overseas: Bangladesh, Pakistan, China, Egypt, Singapore</p>  <p style="text-align: center;"><b>Examples of applications of the container</b></p> <p style="text-align: center;">Loading and unloading waste and changing containers...                  Changing containers for different applications enables high-efficiency and multi-purpose work with one truck.</p>  <p><b>[Price and other inquiries]</b>                  ShinMaywa Industries, Ltd.                  International Sales Dept., Special Purpose Truck Division                  TEL: +81-45-575-5163 FAX: +81- 45-575-9837 E-mail: overseas@shinmaywa.co.jp                  Person in charge: Jin Nishikawa</p>
<b>4. Classification of technology</b>	
(1) Applicable fields	Municipal solid waste treatment, Industrial waste treatment, Hazardous waste treatment, Collection, transportation, and storage
(2) Target waste	Paper/cardboard, Waste plastic, Plastic bottles, Glass bottles, Steel cans, Aluminum cans, Styrene foam, Food waste/raw garbage, Other
(3) Services provided	Sales of machinery and equipment, Technical cooperation/licensing, Consulting
<b>5. Countries to which this technology can be provided</b>	No restrictions
<b>6. Keywords</b>	Truck with detachable container, Arm-Roll
