

除去土壌等の中間貯蔵施設とは？

-
- Map of the Fushimi District showing the layout of various waste management facilities. The map includes labels for 'Soil Contamination Remediation Facilities' (土壌汚染施設), 'Hazardous Waste Treatment Facilities' (廃棄物処理施設), 'Large-scale Landfill' (大規模埋設焼却施設), and 'Double-layered Landfill' (二重層埋設焼却施設). A legend at the bottom identifies facility types by color: pink for reception/separation, orange for soil remediation, purple for hazardous waste treatment, grey for storage, brown for screening, and yellow for double-layered landfills. It also shows main transportation routes in yellow and the expressway belt in green.
