

除去土壌等の中間貯蔵施設とは？

-
- Map of the Fushimi District showing the layout of various waste management facilities. The map includes labels for 'Soil Contamination Remediation Facilities' (土壌汚染施設), 'Hazardous Waste Remediation Facilities' (廃棄物汚染施設), 'Large-scale Remediation Facilities' (大規模施設), and 'Remediation Facilities for Fushimi District' (双葉町仮設焼却施設及び仮設灰処理施設). A legend at the bottom identifies the colors for different types of facilities: pink for 'Acceptance/Sorting Facilities' (受入・分別施設), orange for 'Soil Contamination Remediation Facilities' (土壌汚染施設), purple for 'Hazardous Waste Remediation Facilities' (廃棄物汚染施設), grey for 'Storage Facilities' (保管場等), brown for 'Screening Facilities' (スクリーニング施設), and yellow for 'Main Transportation Routes' (主な輸送・運搬ルート). A scale bar indicates distances up to 1000m.
