

Clean City Partnership Program (C2P2) Seminar at the Japan Pavilion, UNFCCC COP30

Overview

On 12 November 2025, the Ministry of the Environment, Japan, organized the “[Clean City Partnership Program Seminar](#)” at the Japan Pavilion at UNFCCC COP30 in Belém, Brazil. Mayor Hirohisa Fujii of Toyama City and Mayor Claudio Castro of Renca, Chile attended the seminar and introduced how both cities have been collaborating under C3P—such as meet-ups with local companies—and the lessons learned from each other.

In addition, Mayor Hideyuki Yokoyama of Osaka City delivered a video message introducing the city-to-city collaboration between Osaka City and the State of Maharashtra in India. Mr. Michi Kuwahara, President and CEO of Kanadevia Corporation, which participates in the Osaka–Maharashtra collaboration, presented the ongoing feasibility study on green hydrogen and methanation technologies.
