

Participation in the Town Hall COP event hosted by Renca Municipality, Santiago, Chile

Overview

Town Hall COP event was hosted by Renca Municipality on October 4, 2025, ahead of the participation of Mayor of Renca in COP30. This was the first Town Hall COP event in Chile, which was the locally-led climate dialogue regarding COP supported by organizations such as ICLEI. The Minister of Environment of Chile, the Director of the Climate Change Office, the Mayor of Renca, private companies, local residents, and representatives from Toyama City attended, and shared and exchanged their activities, initiatives and contributions to climate change.

In the event, Renca Municipality awarded Toyama City for its contributions about renewable energy and environmental education through City-to-City Collaboration. Tehmco, the company that installed solar power generation system as a JCM model project realized by this collaboration, was also awarded.
