

# 14th East Asia Summit (EAS) High-Level Seminar on Sustainable Cities

**Tuesday, 26 November 2024**  
9:00 am – 12:00 pm (Bangkok Local Time)

**Amari Hotel, Bangkok, Thailand / Online (Zoom)**

The High-Level Seminar (HLS) on Sustainable Cities (former title: HLS on Environmentally Sustainable Cities) has been organized annually as a platform to gather policymakers, experts, and practitioners working to make cities clean, green, and sustainable in the region since 2010. The HLS provides opportunities for participants to share cases and initiatives on sustainable city development and to explore collaboration potential on practical cooperation activities on environmentally sustainable cities.

Recognizing the importance of mutual learning among cities to accelerate transformative changes to address the triple challenges – climate change, biodiversity and pollution, the fourteenth session of the HLS (14HLS) will share good practices in the region, in particular lessons learned from the ASEAN SDGs Frontrunner Cities Program Phase 2 (2022-2024) funded by the Japan-ASEAN Integrated Fund (JAIF).

Organisers: Ministry of the Environment, Japan; Ministry of Natural Resources and Environment, Thailand; ASEAN Working Group for Environmentally Sustainable Cities (AWGESC); ASEAN Secretariat

Collaborator/Secretariat: Institute for Global Environmental Strategies (IGES)

*Organised in collaboration with*

ASEAN SDGs  
FRONTRUNNER  
CITIES
