

## List of Actions

### Priority Area 1. Air Quality Improvement

PA	Activity	Action	Description
PA1. Air Quality Improvement	Tripartite Policy Dialogue on Air Pollution (TPDAP)	A. Exchange of information on policies and technologies	<ul style="list-style-type: none"> <li>◆ Share policies and technologies on prevention and control of air pollutants including PM2.5 and O3</li> <li>◆ Share latest technologies and status in three countries on the introduction of no-contact monitoring and measurement of air pollution</li> </ul>
		B. Exchange of best practices at the regional and global level	<ul style="list-style-type: none"> <li>◆ Share information and endeavor to cooperate through other regional and international frameworks concerning air pollution</li> </ul>
	DSS Working Groups	A. DSS WG I	<ul style="list-style-type: none"> <li>◆ Implement the WG I Mid-term Action Plan 2020-2024:               <ul style="list-style-type: none"> <li>- Continuation of previous WG I activities</li> <li>- Expansion of data sharing for joint research</li> <li>- Encouragement of sharing real-time data for developing early warning system</li> <li>- Enhancement of the cooperation between the two working groups</li> <li>- Encouragement of the participation of outreach research groups</li> <li>- Enhancement of research on sub-seasonal to seasonal (S2S) forecast and long-term variations of DSS</li> <li>- In the implementation of MTAP, Mongolian experts will be invited to participate the WGI meetings to share the knowledge and to discuss the joint research subjects.</li> </ul> </li> </ul>
		B. DSS WG II	<ul style="list-style-type: none"> <li>◆ Implement the WG II Mid-term Action Plan 2020-2024:               <ul style="list-style-type: none"> <li>- Share the scientific views on research for DSS mitigation among WGII researchers by reinforcing the role as an academic and policy exchange.</li> <li>- Establish a concrete "China, Japan, Korea and Mongolia" platform and explore further opportunities for regional cooperation</li> <li>- Gather good practices of the past two terms of MTAP related to DSS mitigation and vegetation restoration and compile them into a report</li> </ul> </li> <li>◆ Enhancement of communication between the WGII and WGI</li> </ul>

Priority Area 2. 3R/Circular Economy/Zero Waste City

PA	Activity	Action	Description
<p>PA2. 3R/Circular Economy/Zero Waste City</p>	<p>3R/Circular Economy/Zero Waste City Seminar</p>	<p>A. Information sharing on 3R/circular economy/zero waste city</p>	<ul style="list-style-type: none"> <li>◆ Discuss policies, legislations, technologies, and best practices concerning 3R, circular economy and zero waste city</li> <li>◆ Exchange latest policy measures on the management and the treatment of medical wastes</li> <li>◆ Exchange latest policies measures for managing and reducing plastic wastes</li> </ul>

## Priority Area 3. Marine and Water Environment Management

PA	Activity	Action	Description
PA3 Marine and Water Environment Management	TEMM-NOWPAP Joint Workshop	A. Information sharing on marine waste	<ul style="list-style-type: none"> <li>◆ Exchange data, policy measures, research results on marine wastes and discuss actions at national, regional, and global level</li> </ul>
		B. Cooperation on International Coastal Cleanup (ICC)	<ul style="list-style-type: none"> <li>◆ Cooperation for promoting citizen participation in cleaning up marine wastes through ICC</li> </ul>
		C. ASEAN+3 Cooperation on marine Waste	<ul style="list-style-type: none"> <li>◆ Promote ASEAN+3 cooperation on marine litter</li> <li>◆ Promote possible "3+X" dialogue and cooperation on marine litter in coastal areas</li> </ul>
	Tripartite Forum on Water Policy and Technology	A. Policy and Technology Exchange on Water Management	<ul style="list-style-type: none"> <li>◆ Share policy, technology, best practices on various water quality issues of common interest.</li> </ul>

Priority Area 4. Climate Change

PA	Activity	Action	Description
PA4. Climate Change	Tripartite Policy Dialogue on Climate Change, Carbon Neutrality & Sustainable Recovery	A. Exchange of Policy and Information on Climate Change Mitigation	<ul style="list-style-type: none"> <li>◆ Share information on mid and long-term low-carbon/decarbonization/carbon neutral strategies in the light of the three countries' respective national circumstances, GHG reduction technologies, carbon trading and discuss national trends.</li> </ul>
		B. Information Exchange on Climate Change Adaptation	<ul style="list-style-type: none"> <li>◆ Share information on three countries' national adaptation policies, new industry and best practices</li> <li>◆ Exchange best practices on climate adaptation at the regional level</li> </ul>
		C. Information Exchange and Joint Research on climate action at city level	<ul style="list-style-type: none"> <li>◆ Expand and deepen exchanges and cooperation on climate actions at city level. E.g., expand the scope of joint research and explore new policy tools for low-carbon/zero-carbon/carbon neutral cities in their management, planning and synergetic governance in the light of the three countries' respective national circumstances.</li> <li>◆ Invite ASEAN countries to participate in such city level cooperation</li> </ul>
		D. Climate Change and Air Pollution Co-Benefit Expert Seminar	<ul style="list-style-type: none"> <li>◆ Exchange knowledge and experience on climate change and air pollution co-benefit technologies and policy measures</li> </ul>
		E. Information exchange on post-COVID19 environmentally sustainable recovery	<ul style="list-style-type: none"> <li>◆ Exchange information on environmentally sustainable recovery measures after COVID19 and disseminate three countries' experiences to the international community.</li> </ul>

Priority Area 5. Biodiversity

PA	Activity	Action	Description
PA5 Biodiversity	Tripartite Policy Dialogue on Biodiversity (TPDBD)	A. Information sharing on policies on biodiversity	<ul style="list-style-type: none"> <li>◆ Share information, experience, and best practices on biodiversity conservation and its sustainable use including the implementation of the post-2020 global biodiversity framework</li> <li>◆ Promote joint projects</li> </ul>
		B. Cooperation on regional and global platforms	<ul style="list-style-type: none"> <li>◆ Promote tripartite collaboration through global and regional biodiversity initiatives</li> </ul>

## Priority Area 6. Chemical Management and Environmental Emergency Response

PA	Activity	Action	Description
PA6 Chemical Management and Environmental Emergency Response	Tripartite Policy Dialogue on Chemical Management (TPDCM) & Tripartite Expert Seminar on Chemical Management (TESCM)	A. Exchange of policy and technology on chemical management	<ul style="list-style-type: none"> <li>◆ Exchange latest information on chemical policies and best practices (e.g. update of regulatory reforms, chemical environmental risk assessment) of three countries and discuss global trends</li> <li>◆ Promote joint research and seminar on chemical management and test</li> </ul>
	Ad-hoc Tripartite Dialogue on Environmental Emergency Response	A. Exchange of policies and experience on environmental emergency response	<ul style="list-style-type: none"> <li>◆ Exchange policies and experience concerning environmental emergency response on an ad hoc basis when three countries agree on the need to convene.</li> </ul>

## Priority Area 7. Transition to Green Economy

PA	Activity	Action	Description
PA7. Transition to Green Economy	Tripartite Roundtable on Environmental Business Plus (TREB+)	A. Information exchange on green economy, technology, and industry	<ul style="list-style-type: none"> <li>◆ Exchange information and best practices on green industry and technologies</li> <li>◆ Exchange information and best practices on Green Supply Chain in connection with APEC GSCNET.</li> </ul>
		B. Tripartite Environmental Pollution Prevention Cooperation Network	<ul style="list-style-type: none"> <li>◆ Develop and operate the web platform of the Tripartite Cooperation Network for Environmental Pollution Prevention and Control Technologies (<a href="http://www.temm-tech.cn">www.temm-tech.cn</a>) to share information on technologies and policy measures</li> </ul>
		C. Joint Development and Mutual Recognition of Eco- Labelling	<ul style="list-style-type: none"> <li>◆ Promote collaboration on eco-labelling common criteria and pursue mutual recognition agreements</li> </ul>

## Priority Area 8. Environmental Education, Public Awareness and Engagement

PA	Activity	Action	Description
PA8. Environmental Education, Public Awareness and Engagement	Tripartite Environmental Education Network (TEEN)	A. TEEN joint projects	<ul style="list-style-type: none"> <li>◆ Conduct joint projects including survey on best environmental education practices, joint report publication, website construction, etc.</li> </ul>
		B. TEEN open symposium	<ul style="list-style-type: none"> <li>◆ Arrange an open event for officials and experts from research institutes and private organization to share information on environmental education.</li> </ul>
	Environmental Training for Officials	A. Thematic lecture, discussion and site visit for officials	<ul style="list-style-type: none"> <li>◆ Hold an event where government officials, experts, institutes, and private organizations relating to environmental education come together for information sharing and networking.</li> </ul>
	Youth Forum	A. Presentation, debate, result reporting, and field activity for youth	<ul style="list-style-type: none"> <li>◆ Conduct debates on environmental issues and joint activities to raise environmental awareness and solidify friendship among three countries' youth.</li> </ul>
