

Framing Questions (PART I)

PART I: Country Experiences on Preparation of NDC Implementation

1. What are **THE CONCRETE STEPS & PROCESSES** taken in your country to prepare for NDC update and for its implementation?
2. What **PRACTICAL CHALLENGES AND BARRIERS** have you encountered in undertaking the above steps and processes? What **FUTURE CHALLENGES** do you anticipate in the upcoming NDC implementation which requires support?
3. Which part of your country experiences could be considered as **EARLY ACTIONS** that other countries could learn from, or consider replicating for their NDC preparation?
4. What types/forms of **REGIONAL COOPERATION** could help accelerate country-level NDC update and implementation?
5. Numerous on-going mitigation efforts fall under “pre-2020” mitigation actions (e.g. NAMAs, REDD+, LEDS, green growth, market-based approaches). What efforts has been done so far to **BRIDGE/CONNECT** on-going mitigation efforts with (I)NDC?
