

Part I Basics

How to use Part I

Part I describes the concept of the PRTR system and procedures to be followed from the calculation of released/transferred quantity to notification, using a business establishment as an example.

Read and understand the following chapters before assessing the released quantity.

- What is PRTR? What benefits do businesses gain by submitting notifications under the PRTR system?
→ 1. Significance of PRTR system (→ pI-2)
- Who and what substances require notification?
→ 2-1 Procedure of determining businesses and substances requiring notification (→ pI-15)
- How to calculate the released/transferred quantity?
→ 2-2 Basic calculation procedure of released/transferred quantity (→ pI-33)
- How to make a notification?
→ 2-3 Notification procedures (→ pI-60)
