

**Manual for Calculating the Quantity of Released Pollutant
under the PRTR (Pollutant Release and Transfer Register)
System**

**Third Edition
Part III Materials**

January 2004

**Ministry of Economy, Trade and Industry
Ministry of the Environment**

Part III Materials

Table of Contents

How to use part III	III-1
1. Examples of calculation in typical processes	III-2
1-1 Storage process (including acceptance and delivery facilities)	III-4
1-2 Reaction/mixing process	III-22
1-3 Machining process	III-42
1-4 Washing process	III-47
1-5 Painting process	III-59
1-6 Printing process	III-66
1-7 Adhesion process	III-74
1-8 Plating process	III-81
1-9 Dyeing process	III-95
1-10 Sterilizing and disinfecting process	III-101
1-11 Process of using other solvents	III-106
2. Questions and Answers	III-111
2-1 Notifications	III-117
2-1-1 Notifications in general	III-117
2-1-2 Move/merger/closure of businesses/ business establishments	III-119
2-1-3 Consignment relation between businesses	III-120
2-2 Range of businesses or business establishments subject to notification	III-122
2-2-1 Range of businesses or business establishments subject to notification in general	III-122
2-2-2 Hospitals	III-125
2-2-3 Business establishments of administrative bodies	III-126
2-2-4 Businesses other than the above	III-127
2-3 Number of full-time employees	III-129
2-4 Specified substances	III-130
2-4-1 Metals and their compounds	III-131
2-4-2 Specified substances other than metals	III-131
2-4-3 Others	III-133
2-5 Assessment of the quantity handled	III-134
2-5-1 Assessment of the quantity manufactured	III-134
2-5-2 Content of specified substances	III-135
2-5-3 Requirements for quantities of raw materials or materials handled which need not be assessed ...	III-136
2-5-4 Other questions on the assessment of handled quantity	III-142

Table of Contents

2-6	Calculation of release/transfer.....	III-144
2-6-1	Classification for notification of release/transfer	III-144
2-6-2	Calculation using actual measurement values	III-146
2-6-3	Calculation of release etc. in various processes	III-148
2-6-4	Assessment of the release from automobile/refueling facilities	III-151
2-6-5	Others.....	III-153
2-7	Specific requirement facilities.....	III-154
3.	How to obtain manuals for calculation by business category	III-161
4.	Data useful for assessing the release	III-165
4-1	Information on designated business categories	III-165
4-1-1	Classification of type of industry.....	III-165
4-1-2	Outline of designated types of industry	III-172
4-1-3	Provisions in each law and regulation for facilities which fall under special requirement facilities	III-181
4-2	Information on specified substances.....	III-187
4-2-1	Major raw materials and materials used by each industry	III-187
4-2-2	Specified substances included in raw materials and materials.....	III-191
4-2-3	Specified substances in petroleum fuel and lubricating oil	III-200
4-2-4	List of specified substances	III-203
4-2-5	Examples of chemical substances which constitute a group of substances	III-218
4-2-6	Table of physical properties of specified substances	III-227
4-3	Data used for calculating the released or transferred quantity such as emission factors.....	III-246
4-3-1	Examples of emission factors of specified substances into the atmosphere	III-246
4-3-2	Examples of emission factors of the gasoline in a storage tank into the atmosphere	III-247
4-3-3	Emission factors listed in manuals of each industry	III-249
4-3-4	Painting method and painting adhesion efficiency.....	III-281
4-3-5	Current efficiency and electrochemical equivalent of metal precipitated in plating process	III-282
4-3-6	Rejection rate and decomposition rate in representative exhaust gas device and wastewater treatment device.....	III-283
4-3-7	Guideline to judge to which medium, air or water, larger quantity is released	III-288
4-3-8	Major unit conversion table.....	III-289

Table of Contents

5. Glossary	III-292
6. Laws and regulations	III-301
7. Index	III-306
