

There are two types of inquiry sheets: a detailed version and a simplified version.

● Detailed version (conventional version)

住所・場所	3/11	3/12	3/13	3/14	3/15
県内	①	②	③	④	⑤
移動	⑥	⑦	⑧	⑨	⑩
県外	⑪	⑫	⑬	⑭	⑮
県内	⑯	⑰	⑱	⑲	⑳
移動	㉑	㉒	㉓	㉔	㉕
県外	㉖	㉗	㉘	㉙	㉚
県内	㉛	㉜	㉝	㉞	㉟
移動	㊱	㊲	㊳	㊴	㊵
県外	㊶	㊷	㊸	㊹	㊺

All respondents were asked to record the activities they conducted on an hourly basis for the period from March 11 to March 25, but the simplified inquiry sheet allows some respondents to summarize their behavior and only enter basic behavioral patterns for a certain period of time.

In November 2013, a simplified inquiry sheet was introduced.

[Requirements for using the simplified inquiry sheet]

People who have experienced none or only one significant behavioral pattern change (such as a change of residence, school or workplace due to evacuation or moving) in the four months following the disaster

Examples

Prepared based on the website of the Radiation Medical Science Center for the Fukushima Health Management Survey, Fukushima Medical University (Information on the Inquiry Sheets for the Basic Survey)

The inquiry sheet for the Basic Survey requires respondents to record the activities they conducted on an hourly basis for the period from March 11 to March 25. In response to complaints concerning the difficulty in filling in the sheet, a simplified version was introduced in November 2013.

However, in order to maintain the accuracy of the survey, the simplified inquiry sheet may be used only by those who have experienced none or only one significant change in their living place due to evacuation or moving, etc. in the four months following the disaster.
