

Theme: Removal of the designation as Areas under Evacuation Orders

As initiatives for reconstruction such as decontamination, infrastructure rebuilding, and restoration of lifestyle foundations implemented by national and local government have progressed, evacuation orders have been gradually lifted since 2014. This section will summarize the details of this process and also touch on the requirements for lifting evacuation orders.

Effects on health

(i) Removal of the designation as Areas under Evacuation Orders

Living

Following the accident at Tokyo Electric Power Company (TEPCO)'s Fukushima Daiichi NPS, an evacuation order was issued for the surrounding areas. People were unable to live in the designated Areas under Evacuation Orders, and the residents were forced to evacuate and live as refugees. With the exception of areas where returning is difficult, radiation doses are decreasing over time, and the lifting of evacuation order designations is progressing. Currently, most of the areas are inhabitable once again.

● Removal of the designation as Areas under Evacuation Orders

● Removal of the designation as Areas under Evacuation Orders for respective municipalities

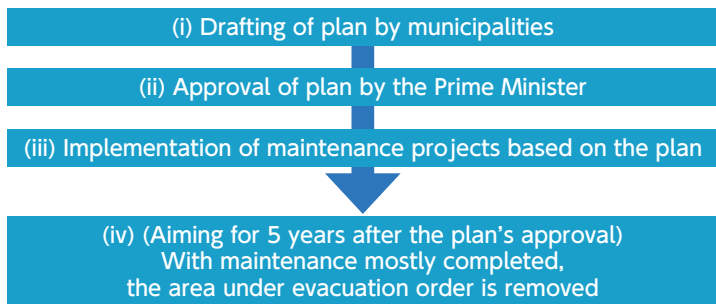

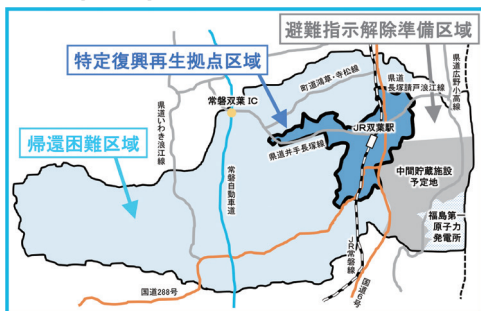

April 1, 2014	Tamura City	Removal of the designation as Preparation Areas for Lift of Evacuation Order
October 1	Kawauchi Village	Removal of the designation as Preparation Areas for Lift of Evacuation Order Shift from Habitation Restricted Areas to Preparation Areas for Lift of Evacuation Order
September 5, 2015	Naraha Town	Removal of the designation as Preparation Areas for Lift of Evacuation Order
June 12, 2016	Katsurao Village	Removal of the designation as Habitation Restricted Areas Removal of the designation as Preparation Areas for Lift of Evacuation Order
June 14	Kawauchi Village	Removal of the designation as Preparation Areas for Lift of Evacuation Order
July 12	Minamisoma City	Removal of the designation as Habitation Restricted Areas Removal of the designation as Preparation Areas for Lift of Evacuation Order
March 31, 2017	Iitate Village, Kawamata Town, Namie Town	Removal of the designation as Habitation Restricted Areas Removal of the designation as Preparation Areas for Lift of Evacuation Order
April 1	Tomioka Town	Removal of the designation as Habitation Restricted Areas Removal of the designation as Preparation Areas for Lift of Evacuation Order
April 10, 2019	Okuma Town	Removal of the designation as Habitation Restricted Areas Removal of the designation as Preparation Areas for Lift of Evacuation Order
March 4, 2020	Futaba Town	Removal of the designation as Habitation Restricted Areas Removal for a portion of the surrounding areas of Futaba Station
March 5, 2020	Okuma Town	Removal for a portion of the surrounding areas of Ono Station
March 10, 2020	Tomioka Town	Removal for a portion of the surrounding areas of Yonomori Station

● Example Specified Reconstruction and Revitalization Base (Futaba Town) and flow of planning

Prepared based on the Reconstruction Agency "System Outline for Reconstruction and Recovery Plans for Zones Designated for Reconstruction and Recovery," 50th meeting of the Nuclear Emergency Response Headquarters (January 17, 2020), etc.

The requirements for lifting evacuation orders are as follows: (i) it is certain that annual cumulative doses will become 20 mSv or lower after removal of the designation; (ii) infrastructure and living-related services necessary for daily lives have been almost restored and decontamination work has progressed sufficiently centered on children's living environments; and (iii) consultations have been held sufficiently among relevant local governments and residents.

For more information about the evacuation order designations, see pages 99 and 101 in Vol. 2, FY2017 edition.
