Kyoto Mechanism Information Platform

What is Information Platform?(1)

Investors' needs

- CDM/JI Procedure?
- Country Information?
- Benefits from Investment??

Lack of Proper Information = Risk for Investment

No Information = No Investment

What is Information Platform?(2)

Host Countries' needs

- Attracting Good Business
- Compatibility with National Development Plan
- Introducing technologies

CDM/JI = a cost effective means of promoting SD, while also achieving climate change mitigation thru a market based instrument

Information Gap Business cost and risk is relatively high.

CDM/JI Investors

- attractive project locations?
- how to find local counterparts?
- approach to / cooperation with local authorities?

Host Countries

- potential project areas/ technologies
- promotion of com/JI business – how and to whom??
