

Discussion

Discussion 1 MRV depending on types of NAMAs

| | |
|--------------|--|
| Discussion 2 | National Communications (NC) and GHG Inventory |
|--------------|--|

Discussion 3 Accuracy and Transparency

| | |
|--------------|---------------------------------------|
| Discussion 4 | Needs for enhanced capability for MRV |
|--------------|---------------------------------------|

Notes for discussion

- ✓ Objective based – Why MRV?
- ✓ Balance – Frequency, Contents and Support
- ✓ Practicality -- at different development stages

Discussion 1

MRV depending on types of NAMAs

AP Seminar Secretariat

Example of NAMAs

| Country | Base year/ Baseline | National Target (by 2020) | Areas | Action Plans |
|---------|------------------------|---------------------------------|---|-----------------|
| A | 1990 | 30% | N/A | No |
| B | BAU | 30% | N/A | No |
| C | 1990 | 25%/ GDP | N/A | No |
| D | 2005 | 30% /GDP | <ul style="list-style-type: none"> ● Deforestation ● Renewable Energy ● Transport | No |
| E | BAU | 15% | <ul style="list-style-type: none"> ● Energy sector: improve efficiency by 20% ● Forest sector: increase 50 mil ha | Yes |

Points to be discussed

- ✓ How to measure the NAMAs?
- ✓ How to report the NAMA through National Communications?

NAMAs

- ✓ Quantitative NAMAs
 - ✓ BaU type
 - ✓ GDP type
- ✓ Qualitative NAMAs
 - ✓ Sector type
 - ✓ Policy Type
- ✓ Programme Type

National Communications

- ✓ GHG Inventory
- ✓ Implementation Status
- ✓ Methodology
- ✓ Support
- ✓ Result of domestic Verification
