

Discussion

Discussion 1 MRV depending on types of NAMAs

Discussion 2	National Communications (NC) and GHG Inventory
--------------	--

Discussion 3 Accuracy and Transparency

Discussion 4	Needs for enhanced capability for MRV
--------------	---------------------------------------

Notes for discussion

- ✓ Objective based – Why MRV?
- ✓ Balance – Frequency, Contents and Support
- ✓ Practicality -- at different development stages

Discussion 3

Accuracy and Transparency

AP Seminar Secretariat

Accuracy and Transparency

Current

	Developed		Developing	
	GHG Inventory	NC	GHG Inventory, NC	
Domestic	QA/QC	None	None	
International	Annual expert Review+SB review	Periodic expert review+SB review		

Proposed

	Developed		Developing	
	GHG Inventory	NC	For unilateral NAMAs	For supported NAMAs
Domestic	QA/QC	None	Verification	(to be discussed)
International	Annual expert Review+SB review	Periodic expert review+SB review	Consultations and Analysis	Verification

Points to be discussed

- ✓ What are the objectives and benefits to enhance accuracy and transparency?
 - ✓ Domestically
 - ✓ Internationally
- ✓ Are the current system for developed countries applicable to developing countries? If no, how should they be improved?
