The EU Waste Shipment Regulation (WSR 1013/2006)

- Is the EU implementation of the Basel Convention
- and the OECD decision on tbn of waste for recycling
- Different procedures for waste shipments which are shipped for disposal or for recycling
- Different procedures for hazardous and non-hazardous waste
- Procedures for export to non- OECD countries, including EU Regulation 1418/2007

Implementation and Enforcement
of Environmental Law

Procedures

- Notification and consent for:
 - shipments of hazardous waste and
 - shipments of waste for disposal
- Simplified procedure (art 18 WSR)
 - non hazardous waste for recycling

Funded by the
European Union

European Union Network for the
Implementation and Enforcement
of Environmental Law

- In some EU Member States transboundary movements of non-hazardous waste which follows the simplified procedure of the WSR need to be pre-notified to the CA
- Most of the EU Member States have no data on transboundary movements of non-hazardous waste
- Hundreds of notified hazardous waste movements can be transported under so called 'general' notifications

Proposal for a new EU WSR

- The Commission shall operate a central system that allows for the electronic submission and exchange of information and documents referred to in paragraph 1. That central system shall provide a hub that shall be used for the exchange in real time of the information and documents between existing national systems for electronic data interchange.
- For **all** transboundary movements of waste!!
- Within four years after adoption that central system shall provide for its interoperability with the EU single window environment for customs.

Implementation and Enforcement
of Environmental Law

Timeframe

- Decision of the EC expected in Q2 of 2024
- Operational Q1 2025 (expected)
- All CA's in EU should be connected to EDI in Q1 2026
