Implementation of PIC Procedure

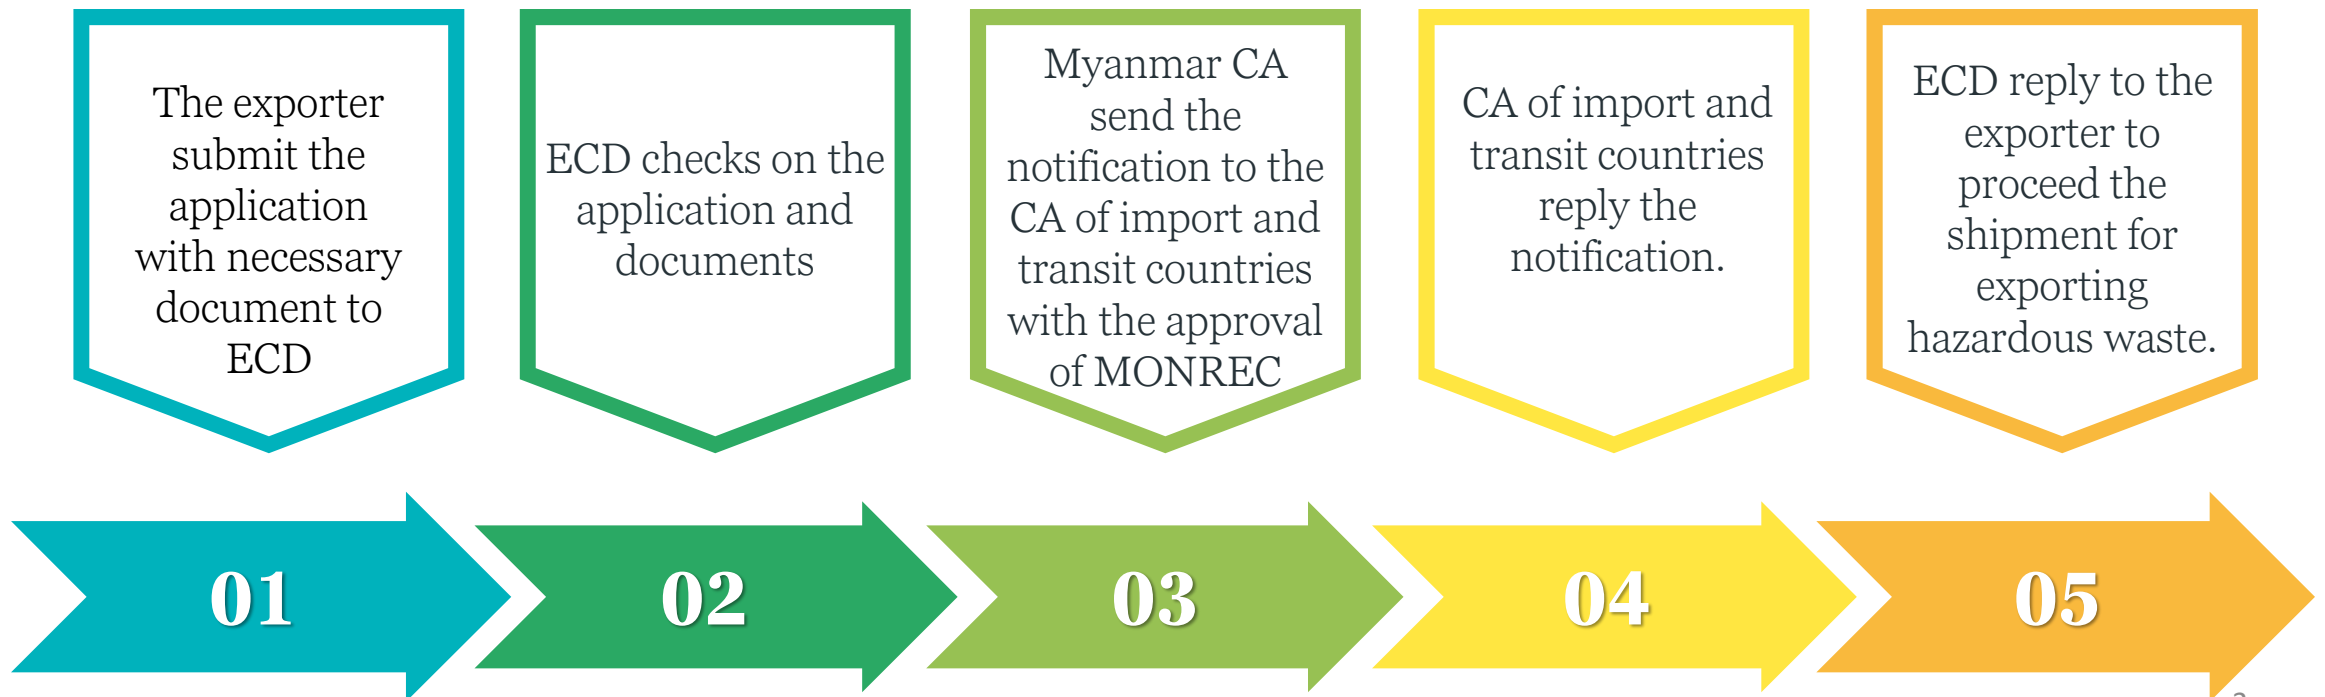

Exportation of Hazardous Waste with PIC

Good Practice for PIC Procedure

Challenges for PIC Procedure

Implementation of PIC Procedure

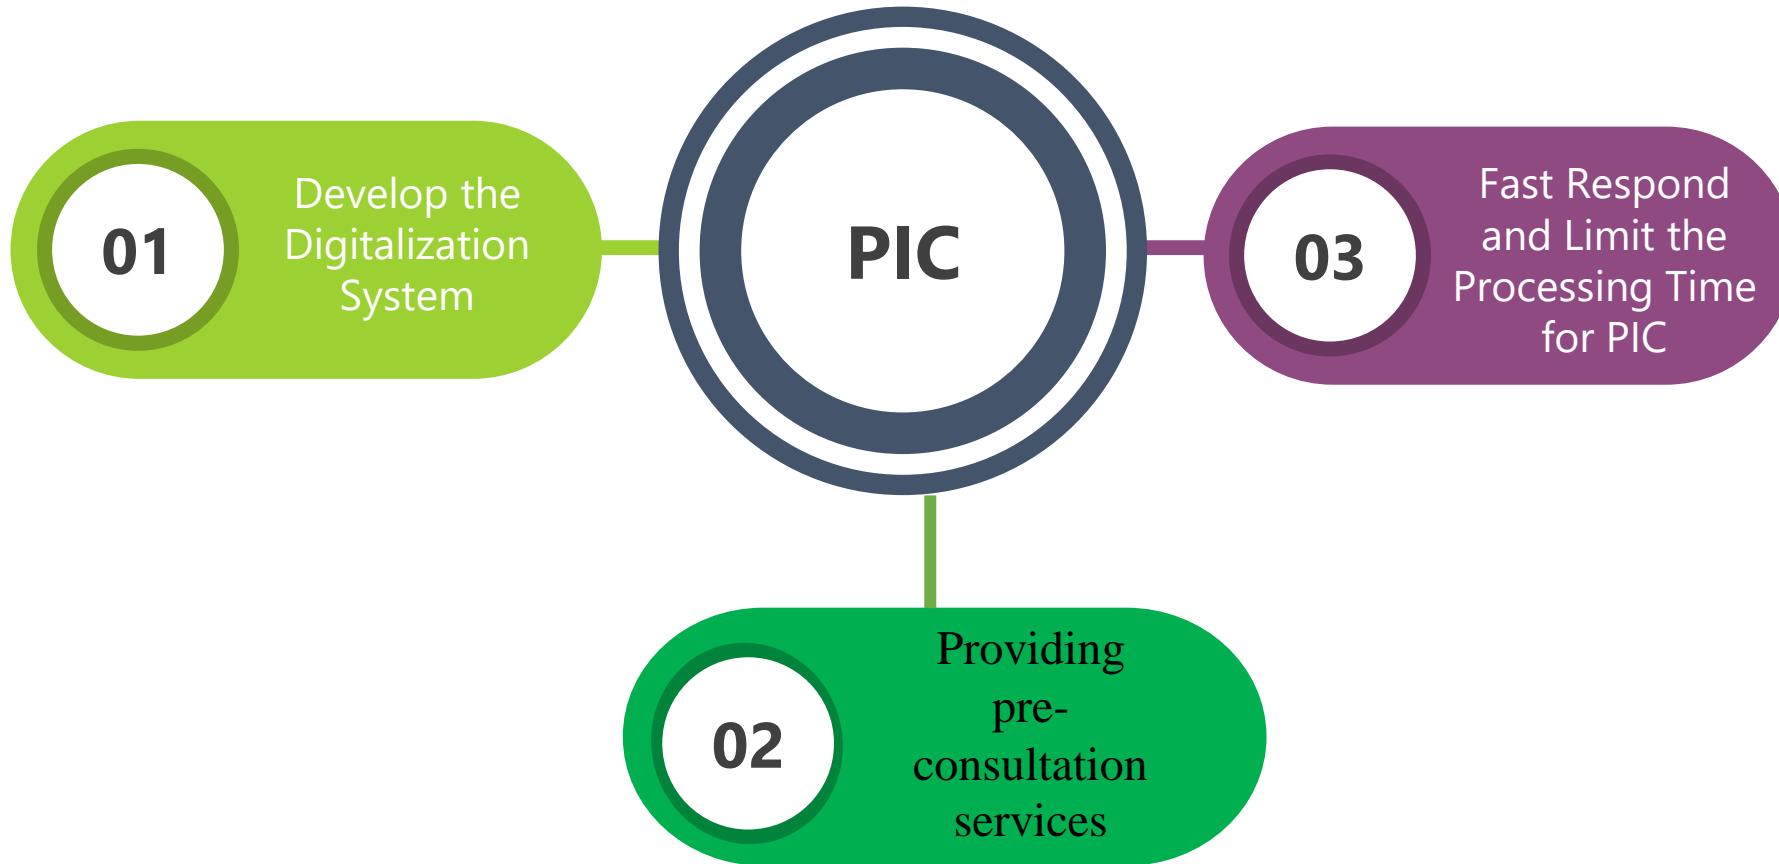

Exportations of Hazardous Waste are carried out by **prior inform consent (PIC)** to the Competent Authority of the Basel Convention in the other countries according to **Procedure on Transboundary Movement of Hazardous Waste and Other Waste.**

Exportation of Hazardous Waste with PIC

No.	Company Name	Commodity	Export Year	Export Amount (MT)	Export Country	Remark
1.	Ultimate Treasure Co., Ltd.	Lead Acid Battery Scrap	2018	493	Korea	
			2019	2399.5		
			2020	1310.36		
2.	Bright Metal Co., Ltd.	Lead Acid Battery Scrap	2019	24.7	India	Transit through Singapore
3.	Myanmar Reliance Shipping Services Co., Ltd.	Electrical and Electronic Waste	2022	8.08	Singapore	

Good Practice for PIC Procedure

Challenges for PIC Procedure

Lack of digitization of the PIC process

Requirements for finance and technology for implementing the E-PIC system

Variety of addresses competent authority

Threshold of hazardous waste constituents content (eg. Mercury and lead content % of fly ash, Cadmium content % of metal scrap)

Technical capacity for identification & analysis of hazardous waste

Lack of experience of importation and transit of hazardous waste

Insufficient experience and capacity in packaging system of hazardous waste

Low awareness and cooperation of domestic stakeholders, such as importers, exporters or waste recyclers

The slide features a light gray background with green geometric shapes in the corners. In the top-left corner, there is a solid green triangle and a thin green line extending diagonally. In the bottom-right corner, there is a solid green triangle and a thin green line extending diagonally.
