■Chapter 1 Overview of Society and Economy

Domestic B	asic Indices	page
1.01	Population, area, gross prefectural product and electricity consumed by prefecture	1
1.02	Population by city (2015)	5
1.03	Chart of Japan's energy balance flow (FY2014)	6
1.04	Trends in total amount of domestic primary energy supply	7
1.05	Trends in final domestic energy consumption	8
1.06	Fuel consumption for residential and commercial industry use	9
1.07	Supply and demand of food	10
1.08	Supply and demand of iron and steel products	12
1.09	Gross domestic expenditure (2005 Standard National Accounts: Chain-linked method)	13
1.10	Population, Labor and Prices	14
1.11	Energy consumption by manufacturing industry (by industry type)	15
1.12	Indices of production in Manufacturing (Value-added weights)	16
1.13	Energy intensity of manufacturing (IIP basis)	17
1.14	Residential energy consumption by use	18
1.15	Residential energy consumption by energy	19
1.16	Residential energy consumption per household by use	20
1.17	Residential energy consumption per household (by use and by energy)	21
1.18	Penetration and ownership of home appliances	22
1.19	Commercial energy consumption by use	23
1.20	Commercial energy consumption by energy	24
1.21	Commercial energy consumption by business type	25
1.22	Commercial energy consumption per floor space by use	26
1.23	Commercial energy consumption per floor space by use and energy	27
1.24	Floor space in the commercial sector by business type	28
1.25	Transportation energy consumption (by mode)	29
1.26	Energy intensity by mode	30
1.27	Trends in proportion of power generation by energy source	31
1.28	Trends in rate of utilization for nuclear power plants	32
1.29	Trend in CO2 emissions per unit of user-end electricity	33
1.30	New energy supply	34
1.31	Installed capacity of cogeneration system	35
1.32	Sales amount of solar system	36
1.33	Sales amount of solar system by use	37
1.34	Deployment of solar power, wind power and waste power generation	38
1.35	Installed capacity and utilization of new energy	39
Overseas B	asic Indices	page
1.36	Population, Area and GDP by country and region	40
1.37	Changes in world population	42
1.38	Major urban population	43
1.39	Major nations' environmental data	44
1.40	Total amount of exports and imports by country and region	46
1.41	Energy balance by country and region (production amount, consumption amount) (FY2012)	47
1.42	Consumption of coal, oil, natural gas and electric power (2012)	48
1.43	Production of mining industry (energy resource)	49
1.44	Electric power generation	50
1.45	Reserves of coal, crude oil, natural gas and uranium	51
1.46	World new energy supply	52
1.47	Transport volume by railways	53
1.48	Present status of roads	54
1.49	Car ownership in each country	55
1.50	Supply of calorific value (2012)	56
1.51	Production quantity of marine products (by species)	57
1.52	Social and environmental indicators in developing countries	59

Chapter 2 Global Environment

Greenhouse	Gas Emissions	page
2.01	Trends in emission amounts of greenhouse gasses in Japan	61
2.02	Trends in Carbon Dioxide Emissions by Sectors in Japan	62
2.03	Trend in Major Socioeconomic Activities and Carbon Dioxide emissions	63
2.04	Trends in carbon dioxide emissions by energy use in major countries and regions	65
2.05	Carbon dioxide emissions by source in major countries and regions	67
2.06	Atmospheric concentrations and anthropogenic emission of CO ₂	68
2.07	Emissions of greenhouse gasses in major countries and regions (2005)	69
2.08	Penetration rate of major consumer durables (general households)	70
2.09	Anomalies of annual average land temperature in the World and Japan	72
0	- Danieties	
Ozone Laye	Shipping volume of CFC in Japan	page 73
	Production and consumption volumes of HCFC in Japan	
2.11	Changes in production volume of major CFCs in the world	76
2.12	Emissions of Ozone Depleting Substances on PRTR basis	78
2.13	Chronological changes in Background Concentration of Specified Substances in the Atmosphere in Hokkaido	79
2.14	Changes in annual average of total ozone amount over Japan	81
2.16	Changes in ozone hole area in the Antarctic	82
2.17	Recovery and Destruction of Fluorocarbons	83
2.18	Japan's contribution to the Montreal Protocol Multilateral Fund	84
Acid Precip	itation	page
2.19	Trends in emissions of sulfur dioxide (SOx) by country	85
2.20	Trends in emissions of nitrogen oxide (NOx) by country	86
2.21	Acid deposition in Europe (Annual average of pH in precipitation)	87
2.22	Acid Deposition in Japan (Annual Average of pH in Precipitation)	88
2.23	Annual average pH at monitoring sites of East Asia acid deposition monitoring network (EANET)	89
Water Quali	ty	page
2.24	Water quality in rivers	90
2.25	Water quality in lakes	91
2.26	Population accessible to sewage treatment facilities	92
<u></u>		
Water Reso	urces	page
2.27	Amount of water intake and fresh water resources by country	93
Ocean Cont	amination	page
2.28	Oil spill accident from tankers 1975 - 2003	95
2.29	Ocean-dumping of Waste	96
Soil Contan	ination	
2.30		page
	Consumption of fertilizer by country	page 97
Biodiversity		97 page
2.31	Changes in land-use by country	97 page 98
		97 page
2.31	Changes in land-use by country Threatened species in each country	97 page 98 99
2.31 2.32 Forest Reso	Changes in land-use by country Threatened species in each country purces	97 page 98 99 page
2.31 2.32 Forest Reso 2.33	Changes in land-use by country Threatened species in each country purces Areas of agricultural land by country	97 page 98 99 page 102
2.31 2.32 Forest Reso	Changes in land-use by country Threatened species in each country purces	97 page 98 99 page
2.31 2.32 Forest Reso 2.33 2.34	Changes in land-use by country Threatened species in each country burces Areas of agricultural land by country Forest area in each country	97 page 98 99 page 102 103
2.31 2.32 Forest Resc 2.33 2.34 Soil Degrad	Changes in land-use by country Threatened species in each country burces Areas of agricultural land by country Forest area in each country ation (Erosion/Desertification)	97 page 98 99 page 102 103
2.31 2.32 Forest Reso 2.33 2.34	Changes in land-use by country Threatened species in each country burces Areas of agricultural land by country Forest area in each country	97 page 98 99 page 102 103
2.31 2.32 Forest Resc 2.33 2.34 Soil Degrad 2.35	Changes in land-use by country Threatened species in each country burces Areas of agricultural land by country Forest area in each country ation (Erosion/Desertification)	97 page 98 99 page 102 103 page
2.31 2.32 Forest Resc 2.33 2.34 Soil Degrad 2.35 Waste	Changes in land-use by country Threatened species in each country Durces Areas of agricultural land by country Forest area in each country ation (Erosion/Desertification) Major causes of soil degradation by region	97 page 98 99 page 102 103 page 104
2.31 2.32 Forest Resc 2.33 2.34 Soil Degrad 2.35 Waste 2.36	Changes in land-use by country Threatened species in each country Durces Areas of agricultural land by country Forest area in each country ation (Erosion/Desertification) Major causes of soil degradation by region Generated amounts of waste by sectors in each country (latest data after 1993)	97 page 98 99 page 102 103 page 104 page
2.31 2.32 Forest Resc 2.33 2.34 Soil Degrad 2.35 Waste 2.36 2.37	Changes in land-use by country Threatened species in each country Durces Areas of agricultural land by country Forest area in each country ation (Erosion/Desertification) Major causes of soil degradation by region Generated amounts of waste by sectors in each country (latest data after 1993) Amount of municipal waste in each country	97 page 98 99 page 102 103 page 104 page 105

■Chapter3 Natural Environment

Land Use		page
3.01	Area of forest converted by purpose	114
3.02	Area of five categories on Basic Land Use Planning by prefecture	115
3.03	Shares of Vegetation Categories by Region	116
3.04	Shares of Vegetation Naturalness by Region	117
3.05	Changes in Vegetation Naturalness over Time	118
3.06	Areas of Forest and Grazing Land (by prefectures and type of ownership)	119
3.07	Area of forest used for public benefits by prefecture	120
Nature Con	servation	page
3.08	Number of Natural Parks and Visitors	121
3.09	Annual number of visitors in each national park	122
3.10	Annual number of visitors to each quasi-national park	125
3.11	Number of Applications for Permission for Activities in National Parks (Numbers of Approvals by the Ministry of the Environment)	129
3.12	Area of Natural Parks by Prefecture	130
3.13	Area of Natural Parks by Region	131
3.14	Marine Park Areas located in the National Parks and the Quasi-National Parks	132
3.15	Area of Wilderness Areas, Nature Conservation Areas	134
3.16	Area of World Natural Heritages	136
Use and Pro	otection of Hot Springs	page
3.17	Annual Survey on the Administrative Measures based on Hot Springs Law	137
3.18	Survey on the Administrative Measures based on Hot Springs Law in 2014 (by prefecture)	138
3.19	Changes in Utilization of Hot Springs	141
3.20	Utilization of Hot Springs by prefecture in 2014	143
City Parks	Status of city parks (by prefecture)	page 145
Shorelines	- and a stype of the state of	page
3.22	Changes in the total length of nationwide Coastline	148
3.23	Alteration of Lake Shorelines	149
3.24	Total length of the coast by prefecture	150
Wetland Co	nservation	page
3.25	Distribution of Extant Tidal flats (by sea area)	151
3.26	Change in Nationwide tidal flats area	153
3.27	Distribution of Extant Sea Grass Beds (by sea area)	154
3.28	Area of Hermatypic Coral by Prefecture	156
3.29	Designated Ramsar sites in Japan	157
Biodiversity		page
3.30	Threatened Wildlife Species in Japan (the species red-listed by the Ministry of the Environment)	158
3.31	Number of Nationally Endangered Species of Wild fauna and flora and Programs for Rehabilitation of Natural Habitats and Maintenance of Viable Population in Japan	159
3.32	Designation of Natural Habitat Protection Area	160
3.33	Designation of Wildlife Protection Areas and Areas for Paid Game Hunting	161
3.34	Number of Hunting Licenses and Captured Wildlife by Hunting	162
3.35	The number of Invasive Alien Species and of Confirmed/Approved Cases of their Mitigation based on Invasive Alien Species Act	163
_	ection and Management	page
3.36	Registration Status of the Animal Handling Business Operators	164
3.37	Change in the Number of Dogs and Cats Adopted, Reunited with Owners, and Put to Sleep	166

■Chapter 4 Material-Cycle

Material Flo	ow .	page
4.01	Material Flow in Japan	167
4.02	Changes in Material Flow Indicators in Japan	168
Municipal V		page
4.03	Waste Disposal Flow Sheet (Actual FY2013) Trends in total amount of waste generated	169 170
4.04	Changes in generation of waste per person per day	170
4.06	Waste Treatment by Prefecture	172
4.07	Development of Waste Incineration Plants	174
4.08	Development of Waste Incineration Plants by Prefecture	175
4.09	Development of Recycling Facilities	176
4.10	Development of Recycling Facilities by Prefecture (FY2013)	178
4.11	Development of Bulky Waste Disposal Facilities	179
4.12	Development of Bulky Waste Facilities by Prefecture	180
4.13	Changes in Total Volume of Final Disposal	181
4.14	Development of Final Disposal Sites by Prefecture	182
4.15	Changes in Annual Expenses for the Waste Management	184
4.16	Changes in Annual Expenditures for Waste Management Program	185
Industrial V		page
4.17	Flow of treatment for industrial waste (in FY2013)	186
4.18 4.19	Generation of Industrial Waste by Industrial Sector Generation of Industrial Waste by Type	187 190
_		
4.20	Changes in Disposal/Treatment of Industrial Waste Changes in the Number of Permissions for the Industrial Waste and the Remaining Periods of the Capacity of Final Disposal Sites	192 193
4.21	Number of illegal-dumping cases of Industrial Waste and volume dumped by Prefecture (Newly-reported cases) (1)	193
4.23	Survey on Environmental impacts by Illegal dumping and measures by prefectures (the unsolved cases)	197
4.24	Offenders of illegal dumping	198
4.25	Number of Unsolved Cases of Illegal Dumping and Remaining Amount	199
4.26	Number of the Unsolved Cases of Illegal Dumping and Remaining Amount by Prefecture	200
4.27	Improper Disposal of Sulfate Pitch	201
		<u> </u>
Wide-Area	Movement	page
4.28	Wide-area movement of municipal waste	202
4.29	Wide-area movement of industrial waste	203
Package Re	, ,	page
4.30	Percentage of Containers and Packaging in Household Waste	204
4.31	Changes in shipping volume of glass bottles	205
4.32	Production and disposal of plastics Changes in sales amounts of aluminum cans and recycling ratio	206 207
4.34	Changes in consumption and recycling rate of steel cans	208
4.35	Change in recovery rate of cardboard	209
4.36	Changes in production volume and recovery ratio of PET bottles	210
4.37	Utilization of products from recycled PET bottles	211
4.38	Changes in sales volume and collection rate of household cartons	212
4.39	Achievement on Sorted Collection and Recycling based on the Containers and Packaging Recycling Act	213
4.40	Changes in production volume and recycling rate of foamed polystyrene	214
Home Appl	iances Recycling	page
4.41	Implementation of Recycling of Specified Home Appliances	215
		_
	on Recycling	
4.42	Volumes of construction waste by type	217
4.43	Recycling of construction waste by item	218
Food Dage	alina	
Food Recy	·	010
4.44	Generation and treatment of food waste	219
Automobile	Recycling	nago
4.45	Collection of used cars (number of cases reported)	page 220
4.45	Rate of recycling of Shredder dust (ASR) and the like by automobile manufacturers	221
7.70		
Effective R	esource Utilization	page
4.47	Voluntary collection and resource regeneration of PC and small rechargeable batteries (FY2014)	222

■Chapter 5 Aquatic Environment

Vater Quality		
5.01	Number of Specified Sites in accordance with the Water Pollution Control Act	223
5.02	Number of specified sites by prefecture in accordance with Water Pollution Control Act	224
5.03	Results of the comprehensive survey of release of water pollution substances	225
5.04	Rate of compliance with environmental quality on health issues (non-achievement rate)	226
5.05	Rate of compliance for environmental standards (BOD or COD)	227
5.06	Water quality of enclosed sea area (annual average of COD)	228
5.07	Changes in Water quality in the specified lakes (COD)	229
5.08	Achievement rate of Environmental Quality Standards for total nitrogen and total phosphorus in marine water	230
5.09	Achievement of Environment Standards for Total Nitrogen and Total Phosphorus in Lakes	231
5.10	Generation Loads and Reduction Targets for 3 Sea Areas with Area-wide Total Pollutant Controls by Source	232
5.11	Number of occurrences of Red Tides in Seto Inland Sea	233
5.12	Licensed landfill area of Seto inland sea	234
5.13	Amount of sea gravel extracted in coastal prefectures in Seto Inland Sea	235
roundwater	Contamination	page
	Groundwater contamination - Yearly number of confirmed cases where contamination level exceeds the standards	236
	Itemized breakdown of groundwater contamination cases	237
roundwater	Quality	page
5.16	Results of groundwater quality survey	238
Cean Conta	mination	page
	mination Changes in number of confirmed marine pollution cases by sea area	page 244
5.17		
5.17	Changes in number of confirmed marine pollution cases by sea area	244
5.17 5.18 Vaste Water	Changes in number of confirmed marine pollution cases by sea area Changes in number of cases of referral by violations against marine environmental laws Treatment	244 245 page
5.17 5.18 Vaste Water 5.19	Changes in number of confirmed marine pollution cases by sea area Changes in number of cases of referral by violations against marine environmental laws Treatment Night soil treatment flow sheet (FY2013)	244 245 page 246
5.17 5.18 Vaste Water 5.19 5.20	Changes in number of confirmed marine pollution cases by sea area Changes in number of cases of referral by violations against marine environmental laws Treatment Night soil treatment flow sheet (FY2013) Changes in population using flush toilets and treatment volume of night soil	244 245 page 246 247
5.17 5.18 Vaste Water 5.19 5.20 5.21	Changes in number of confirmed marine pollution cases by sea area Changes in number of cases of referral by violations against marine environmental laws Treatment Night soil treatment flow sheet (FY2013) Changes in population using flush toilets and treatment volume of night soil Current situations of night soil treatment facilities by prefectures	244 245 page 246 247 249
5.17 5.18 Vaste Water 5.19 5.20 5.21 5.22	Changes in number of confirmed marine pollution cases by sea area Changes in number of cases of referral by violations against marine environmental laws Treatment Night soil treatment flow sheet (FY2013) Changes in population using flush toilets and treatment volume of night soil Current situations of night soil treatment facilities by prefectures Trends in breakdown of nationwide night soil treatment facilities by type (start-of-construction-basis)	244 245 page 246 247 249 251
5.17 5.18 Vaste Water 5.19 5.20 5.21 5.22 5.23	Changes in number of confirmed marine pollution cases by sea area Changes in number of cases of referral by violations against marine environmental laws Treatment Night soil treatment flow sheet (FY2013) Changes in population using flush toilets and treatment volume of night soil Current situations of night soil treatment facilities by prefectures Trends in breakdown of nationwide night soil treatment facilities by type (start-of-construction-basis) Changes in number of installed Johkasou (Nationwide)	244 245 page 246 247 249 251
5.17 5.18 Vaste Water 5.19 5.20 5.21 5.22 5.23 5.24	Changes in number of confirmed marine pollution cases by sea area Changes in number of cases of referral by violations against marine environmental laws Treatment Night soil treatment flow sheet (FY2013) Changes in population using flush toilets and treatment volume of night soil Current situations of night soil treatment facilities by prefectures Trends in breakdown of nationwide night soil treatment facilities by type (start-of-construction-basis) Changes in number of installed Johkasou (Nationwide) Night soil treatment facilities (established by municipalities and administration associations) by prefecture	244 245 page 246 247 249 251 252 253
5.17 5.18 Vaste Water 5.19 5.20 5.21 5.22 5.23 5.24 5.25	Changes in number of confirmed marine pollution cases by sea area Changes in number of cases of referral by violations against marine environmental laws Treatment Night soil treatment flow sheet (FY2013) Changes in population using flush toilets and treatment volume of night soil Current situations of night soil treatment facilities by prefectures Trends in breakdown of nationwide night soil treatment facilities by type (start-of-construction-basis) Changes in number of installed Johkasou (Nationwide)	244 245 page 246 247 249 251 252 253 254

■Chapter 6 Atmospheric Environment

ed Source		pa
6.01	Changes in number of facilities emitting soot and smoke	
6.02	Number of facilities emitting soot and smoke by prefecture	
6.03	Changes in of particulate-discharging facilities (Ordinary particulate/specified particulates)	
6.04	Prefectural number of facilities discharging ordinary particulates	
6.05	Air pollutant emissions (from Stationary sources)	
6.06	Sulfur oxide emissions (breakdown by type of facility)	
6.07	Nitrogen oxide emissions (breakdown by type of facility)	
6.08	Soot and dust emissions (breakdown by type of facility)	
bile Sou		pa
6.09	Changes in car ownership	
6.10	Total automobile transportation volume and car ownership by prefecture	
6.11	Trends in freight transportation	
6.12	Changes in volume of passenger transportation	
6.13	Changes in transport share by mode	
6.14	Development and coverage rate of national highways by prefecture	
6.15	Traffic Volume of National Expressways, Urban Expressways and Common Roadways	
6.16	Changes in Kilometers Traveling (one million kilometers)	
6.17	Increase in vehicle weight of Passenger cars (private use/business use)	
w Emicei	on Vehicles	
6.18	Changes in number of the next-generation vehicles	p
6.19	Changes in number of the inext-generation vehicles Changes in number of fueling facilities for next-generation vehicles	
0.19	Orlanges in number of ruening radiates for next-generation vehicles	
fur-Oxid	os	р
6.20	Trends in annual average concentration of Sulfur Dioxide (Ambient air pollution monitoring stations/Roadside air pollution monitoring stations)	
6.21	Achievement of environmental quality standards for concentration of Sulfur Dioxide (Ambient air pollution monitoring stations/roadside air pollution monitoring stations)	
	Stations	
rogen-O		
6.22	Trends in annual average of Nitrogen dioxide (NO ₂) and Nitrogen Monoxide (NO) concentration (Ambient air pollution monitoring stations / Roadside air pollution monitoring stations)	
6.23	Achievement of environmental quality standards for Nitrogen Dioxide (Ambient air pollution monitoring stations / Roadside traffic environment monitoring stations)	
6.24	Achievement of environmental quality standards for Nitrogen Dioxide by prefecture (Ambient Air Pollution Monitoring Stations)	
6.25	Achievement of environmental standards for Nitrogen Dioxide (NO2) by prefecture (Roadside air pollution monitoring stations)	
spended	Particulate Matters	pa
6.26	Trends in annual average concentration of Suspended Particulate Matters (Ambient Air Pollution Monitoring Stations/Roadside Air Pollution Monitoring Stations)	Ρ.
	Achievement of environmental quality standards for Suspended Particulate Matters (Ambient air pollution monitoring stations / Roadside air pollution monitoring	
6.27	stations)	
6.28	Annual average concentration of Particulate Matters	
6.29		
6.30	Achievement of environmental quality standards for Suspended Particulate Matters by prefecture (Ambient Air Pollution Monitoring Stations) Achievement of Environmental Standards for Suspended Particulate Matter by prefecture (Roadside Air Pollution Monitoring Stations)	
	Achievement of environmental quality standards for Suspended Particulate Matters by prefecture (Ambient Air Pollution Monitoring Stations)	
6.30	Achievement of environmental quality standards for Suspended Particulate Matters by prefecture (Ambient Air Pollution Monitoring Stations) Achievement of Environmental Standards for Suspended Particulate Matter by prefecture (Roadside Air Pollution Monitoring Stations) toxide	
6.30	Achievement of environmental quality standards for Suspended Particulate Matters by prefecture (Ambient Air Pollution Monitoring Stations) Achievement of Environmental Standards for Suspended Particulate Matter by prefecture (Roadside Air Pollution Monitoring Stations)	
6.30 rbon-Mo 6.31	Achievement of environmental quality standards for Suspended Particulate Matters by prefecture (Ambient Air Pollution Monitoring Stations) Achievement of Environmental Standards for Suspended Particulate Matter by prefecture (Roadside Air Pollution Monitoring Stations) toxide	р

■Chapter 7 Chemical Substances

7.01	Dioxins emission inventory	
7.02	Result of environmental survey on dioxins in FY 2014	
7.03	Chronological changes in daily intake of dioxins per person in Japan	
7.04	Chronological changes in daily intake of dioxins originated from total diet samples	
7.05	Notifications of specified facilities based on the Law concerning Special Measures against Dioxins	
7.06	Specified facilities subject to Gas Emission Standards, based on the Law Concerning Special Measures against Dioxins(by type of notification)	
7.07	Notifications from facilities subject to Effluent Emission Standards, based on the Act on Special Measures against Dioxins (by contents of notification)	
:I C		
	ubstances	
7.08	Number of notifications for new chemical compounds based on Act on the Evaluation of Chemical Substances and Regulation of their Manufacture, etc. Result of the Initial Environmental Survey in FY2014	
7.09	Environmental survey details of the chemical environment in fiscal year 2014	
	Results of Environmental Monitoring in FY 2014	
7.11	Amount of releases and transfers based on PRTR by industry (FY 2014)	
7.12	Amounts of releases and transfers based on PRTR by industry (FT 2014) Amounts of releases and transfers based on PRTR by prefecture (FY 2014)	
7.13	Reported releases and estimated releases by prefecture (FY 2014)	
7.14		
7.15 7.16	PRTR top ten substances of reported releases and transfers (FY 2014) PRTR top ten substances of reported releases and estimated releases (FY 2014)	
7.10	1 KTK top tell substances of reported releases and estimated releases (F 2014)	
	inistration	
8.01	① Budget for competitive funding on environmental research and development of environmental technology	
8.01	② Number of employees in environmental divisions of local governments by prefecture	
8.02	Trainees at the National Environmental Research and Training Institute, Ministry of the Environment	
8.03	Changes in number of arrests for environmental crimes grouped by law	
8.04	Number of arrests for violation of Waste Disposal Act by type	
8.05	Changes in numbers of offenders normally accepted / processed	
8.06	Local governments' expenses for measures against pollutions	
8.07	Regions under the Regional Environmental Pollution Control Programs	
8.08	The Costs relating to the Pollution Prevention Projects, and Additional Subsidies	
8.09	Existing number of Patients by Region, subject to Law Concerning Pollution-Related Health Damage Compensation and other Measures	
8.10	Changes in Existing number of Patients by Region, subject to the Pollution Damage Compensation Act	
8.11	① Number of certified persons by Act on Compensation, etc. for pollution related health damage (Status of application process for Minamata disease certification)	
8.11	② Judgment on relief measures based on the Law Concerning Special Measures for Compensation of Minamata Disease	
8.12	Acceptance and approval applications based on the Act on Asbestos Health Damage Relief	
8.13	Implementation Rate of Green Procurement in Local Governments and Enterprises	
8.14	Enforcement of performed environmental impact assessment under Environmental Impact Assessment Law	
8.15	The number of cases that completed environmental impact assessment procedures under Environmental Impact Assessment Law (as of the end of FY2014)	
8.16	Status of formulating basic ordinances of Environmental Policy	
8.17	Status of formulating basic plans of Environmental Policies	
8.18	Status of environmental policies local governments are focusing on	
terprises		
8.19	Business confidence in Environmental business in Japan	
8.20	Top 5 Environmental business that are expected to grow (total of all enterprise scale)	
0.04	Business outlook (Diffusion Index)	
8.21	Environmental business outlook (by type of environmental business)	
8.22	Initiatives toward environmental management (Listed companies)	
8.22 8.23	Initiatives toward environmental management (Listed companies)	
8.22 8.23 8.24	Companies that disclose environmental information	
8.22 8.23 8.24 8.25	Companies that disclose environmental information Status of compiling and disclosing of environmental reports	
8.22 8.23 8.24 8.25 8.26	Companies that disclose environmental information Status of compiling and disclosing of environmental reports Conditions of introduction of environmental accounting	
8.22 8.23 8.24 8.25	Companies that disclose environmental information Status of compiling and disclosing of environmental reports	
8.22 8.23 8.24 8.25 8.26	Companies that disclose environmental information Status of compiling and disclosing of environmental reports Conditions of introduction of environmental accounting Changes in results of National examinations for Pollution Control Manager and Others
