

DRAFT COMPREHENSIVE ENVIRONMENTAL
EVALUATION
OF NEW INDIAN RESEARCH BASE AT
LARSEMANN HILLS,
ANTARCTICA

TABLE OF CONTENTS

NON-TECHNICAL SUMMARY	1
1. INTRODUCTION	5
1.1 History of Indian Antarctic Research	5
1.1.1 Dakshin Gangotri	5
1.1.2 Maitri.....	7
1.1.3 Scientific Studies in Antarctica.....	7
1.2 Planned Scientific activities at the new base	9
1.2.1 Meteorological and atmospheric studies.....	9
1.2.2 Earth Science studies	9
1.2.3 Oceanographic studies	10
1.2.4 Environmental studies.....	10
1.2.5 Biological studies.....	10
2. DESCRIPTION AND NEED OF THE PROPOSED ACTIVITY	13
2.1 Need for the station.....	13
2.2 Location of site	14
2.3 Scope of CEE.....	16
2.4 Proposed facilities at the Station.....	16
2.4.1 Living accommodation	16
2.4.2 Laboratories	16
2.4.3 The Medical facilities	19
2.4.4 The Kitchen and dining.....	19
2.4.5 The Garage, workshop and Stores	19
2.4.6 Waste Management.....	19
2.4.7 Water Management.....	19
2.4.8 Energy Management.....	19
2.5 Shipping and logistics	19
2.5.1 Accessibility from the open ocean.....	19
2.5.2 Transportation and Movement.....	20
2.6 Construction of Station	20
2.7 Installation of Wind Turbines and Solar Panels	21
2.8 Decommissioning of Station.....	21
3. STATION DESIGN.....	23
3.1 Station Description.....	23

3.2	Structural Design	24
3.2.1	Base Foundation and Stability	24
3.2.2	Outer Shell	24
3.2.3	Aerodynamic Stability	25
3.3	Room System	25
3.3.1	Fire Protection.....	28
3.3.2	Energy supply	28
3.3.3	Heat Ventilation and Air Conditioning.....	28
3.3.4	Water Supply and Wastewater Management.....	28
3.3.5	Lighting.....	29
3.4	Shipping and Transportation.....	30
3.5	Emission abatement in Station Design	30
3.6	Decommissioning	30
4.	ALTERNATIVES TO PROPOSED ACTIVITY	33
4.1	Alternative Locations at Regional Level	33
4.1.1	Antarctic Peninsula	33
4.1.2	Filchner Ice Shelf.....	33
4.1.3	Amery Ice shelf – Prydz Bay area	33
4.2	Alternate Sites examined within Prydz Bay	33
4.2.1	Vestfold Hills	33
4.2.2	Rauer Group of islands	34
4.2.3	Area between the Bolingen and Svenner Islands (Larsemann Hills): ..	35
4.3	Alternative Locations in Larsemann Hills	37
4.3.1	Broknes Peninsula.....	38
4.4	Alternative transport to the Station	38
4.5	Alternative of not proceeding with the activity	39
5.	INITIAL ENVIRONMENTAL REFERENCE	41
5.1	Location	41
5.2	Geology.....	41
5.2.1	Geology of the Larsemann Hills	41
5.2.2	Geology at the Proposed Station Site.....	42
5.3	Glaciology.....	43
5.3.1	Geomorphology	43
5.4	Soil	44

5.5	Lake Water Characteristics	44
5.6	Climate.....	44
5.6.1	Overview.....	44
5.6.2	Snowfall.....	44
5.6.3	Katabatic Wind	44
5.6.4	Humidity	45
5.6.5	Sea Ice.....	45
5.7	Anthropogenic Impact - Background Information	46
5.7.1	Baseline Monitoring Information	46
5.7.1.1	Water Quality.....	46
5.8	Flora and Fauna.....	47
5.8.1	Flora	47
5.8.1.1	Lake and stream biota	48
5.8.2	Vertebrate Fauna.....	48
5.8.2.1	Seals	48
5.8.3	Invertebrate Fauna	49
5.9	Protected Areas and Historic Sites and Monuments.....	49
5.10	Prediction of Future Environmental Reference in the absence of Proposed Activity	49
6.	IDENTIFICATION AND PREDICTION OF IMPACTS.....	51
6.1	Methods and Data used for Prediction of Impacts.....	51
6.2	Impact due to Construction Activities	51
6.2.1	Physical Disturbance.....	51
6.2.2	Impact on Air Quality	51
6.2.2.1	Impact due to supply ship	52
6.2.2.2	Impact due to air operations.....	52
6.2.2.3	Impact due to generators.....	53
6.2.2.4	Impact due to ATVs.....	53
6.2.2.5	Impact due to use of forklift.....	54
6.2.2.6	Impact due to Crane	54
6.2.3	Impact on Water Quality.....	54
6.2.3.1	Waste from Ship	54
6.2.4	Oil Spill and other waste.....	54
6.2.5	Impact on Flora and Fauna	55

6.2.6	Impact on aesthetic and wilderness values	55
6.2.7	Impact of Noise.....	55
6.3	Impact due to Operation Activity of the Station.....	55
6.3.1	Physical Disturbance.....	55
6.3.2	Air emission.....	55
6.3.2.1	Supply Ship.....	55
6.3.2.2	Helicopter.....	55
6.3.2.3	Generator.....	56
6.3.2.4	Vehicles.....	56
6.3.3	Impact on Water Quality.....	56
6.3.4	Waste (Solid and semi solid)	57
6.3.5	Noise Quality	57
6.3.6	Fuel Spill.....	57
6.3.7	Aesthetic and Wilderness Value	57
7.	MITIGATION MEASURES	59
7.1	Physical Disturbance.....	59
7.2	Impact on Air Quality	59
7.2.1	Supply Ship.....	59
7.2.2	Helicopter.....	59
7.2.3	ATV	59
7.2.4	Generators.....	59
7.2.5	Cranes and Forklift	60
7.3	Impact on Water Quality.....	60
7.3.1	Waste from ship	60
7.3.2	Water quality at site	60
7.4	Noise Environment	61
7.5	Impact of Oil Spill	61
7.6	Impact of other waste.....	61
7.7	Impact on Flora and Fauna	61
7.8	Impact on Scientific activities.....	61
7.9	Aesthetic and Wilderness Value	61
8.	ENVIRONMENTAL MONITORING	69
9.	GAPS IN KNOWLEDGE AND UNCERTAINTIES	71
10.	CONCLUSIONS.....	73
11.	PREPARERS AND ADVISORS	75
	ACKNOWLEDGEMENT	78

ABBREVIATIONS and ACRONYMS.....	79
REFERENCES.....	81

LIST OF FIGURES

Figure 1 : Location of Dakshin Gangotri Station and India Bay	5
Figure 2 : Dakshin Gangotri Station	6
Figure 3: Maitri Station at Schirmacher Oasis, East Antarctica	7
Figure 4 : India-Gondwana Fit.....	14
Figure 5 : Prydz Bay Area	15
Figure 6: Layout plan of the station building and other infrastructure	17
Figure 7 : Larsemann Hills and Surroundings	20
Figure 8 : Artist’s Impression of Building.....	23
Figure 9: Base, and Structure of the Building.....	24
Figure 10 : Inner Base of Container and Outer Shell.....	25
Figure 11 : Facility Distribution in Ground and Upper Floor.....	26
Figure 12 : Proposed HVAC System	28
Figure 13 : Artist’s Impression of Lighting Arrangement in Rooms.....	29
Figure 14 : Artist’s Impression of Landing Site	30
Figure 15 : Ocean currents in the Prydz Bay Area	34
Figure 16 : Penguin Rookery at Rauer Group Island.....	35
Figure 17 : Location of Bolingen and Svenner Islands, Rauer Group and Vestfold Hills	36
