People's love and understanding of nature stem from experiences in the outdoors. However, as the world's population becomes more urban, diverse and sedentary, nature is less present but ever more needed in our lives.

One of the most important legacies that we can impart to future generations is to initiate and nurture life-long relationships with nature.

Many of us live in a world increasingly dissociated from nature

INSPIRING A NEW GENERATION

Imagine a future 25 years from now...

...where the natural world is very much present in people's lives

...where children **without concern** run, play, climb a tree, and splash in a pond

INSPIRING A NEW GENERATION

Imagine a future 25 years from now...

...where the natural world is very much present in people's lives

...where children **without concern** run, play, climb a tree, and splash in a pond

...where there is overwhelming evidence of public support for nature...

- through community engagement,
- government decisions, and
- a public volunteering their time, talents and collective wisdom.

INSPIRING A NEW GENERATION

Imagine a future 25 years from now...

... where technology is used in ways we can't even begin to fathom today, enticing people out of their homes to discover, appreciate and conserve nature.

...where the natural world is very much present in people's lives

INSPIRING A NEW GENERATION

Imagine a future 25 years from now...

...where families are eager to return for another park visit...

- to share the beauty and wonder of nature,
- to have transformative experiences, and
- to build lasting memories together.
