Current Status and International Contribution of Green Public Procurement (GPP) and Eco-labels in Japan

Hideki Nakahara
Chair of International Green Purchasing Network
Progress of green purchasing in Japan

**Foundation**
- in 1989  Eco Mark started
- in 1993  Basic Environment Law
- in 1994  Comprehensive guideline of green purchasing in Shiga
- in 1996  Green Purchasing Network established

**Fixation**
- in 2000  Fundamental Law for Establishing a Sound Material-Cycle Society
- in 2000  Law on Promoting Green Purchasing
- in 2003  Fix the target about promoting green purchasing for Local Governments and businesses on Fundamental Plan for Establishing a Sound Material-Cycle Society

**Progress**
- in 2005  International Green Purchasing Network established
- in 2007  Green Contract Law
- in 2008  Fundamental Plan for Establishing a Sound Material-Cycle Society 2nd edition was established
Framework of Green Purchasing Law

Central Government: Promotes green procurement

Prepares ‘Basic Policy’
- Basic directions in procurement promotion
- Designated procurement items and evaluation criteria

Consider Necessity first
- Gov’t and agencies shall take care that the purchase of environmental goods based on the Green Purchasing Law does not increase the total purchasing amount of goods and services.

Local governments
- Prepare a procurement policy
- Green procurement according to the policy (Best effort-basis)

Central government agencies

Prepare & announce a procurement policy

Green procurement according to the policy

Compile procurement records (Mandatory)

Business / General public
- Choose eco-friendly goods and services (General responsibility)

Designated Procurement Items

- Paper
- Stationery
- Office furniture
- Office automation equipment (copiers, printers, PCs, cartridges, etc.)
- Mobile phones
- Home electric appliances (TVs, microwave ovens, etc.)
- Air conditioners
- Water heating equipment (electric water heater, gas water heater, etc.)
- Lighting (lamps, LEDs, etc.)
- Vehicles (vehicles, tires, engine oil)
- Fire extinguishers
- Uniforms
- Interior fixtures and beddings (carpets, curtains, etc.)
- Work gloves
- Other fiber products
- Facilities (solar panels, solar thermal appliances, etc.)
- Disaster prevention supplies
- Public works projects
- Services (printing, transportation, etc.)
Eco Mark and GPP

58 categories: includes items for general consumers
(Certification by the third party: Japan Environment Association)

267 items: items purchased by authorities
(Self declaration by manufacturers)

Eco Mark: leading runner

Green Purchasing Law: minimum level

Example: ballpoint pen (made by plastics)
Eco Mark: the rate of recycled plastics needs to be 70 wt% or more
Green procurement law: the rate of recycled plastics needs to be 40 wt% or more
Outline of Eco Mark Program

- Year of establishment: 1989 (25th Anniversary)
- Number of criteria: 58
- No. of certified products (companies): 5,446 (1,629) as of 30 November, 2014
- Market scale of certified products: ¥4.4 Trillion ($44 billion) <year of 2012>

Keywords

1. Operated by Non-profit organization, Japan Environment Association (JEA)
2. High awareness: 92%
3. Widely used as reference for GPP

Green Purchasing Network (GPN)

- Non-profit organization that promotes green purchasing
- Established in February 1996 by the Environment Agency and other stakeholders
- Network of government, industry, academia, and public including procurers and suppliers
- Participation of 2,465 organizations (2,042 companies, 196 government agencies, and 227 non-government organizations)
- Goal: Promoting and providing information of green purchasing for sustainable consumption and production

Activities:
- Drawing up Green Purchasing Guidelines
- Providing information about environmentally friendly products and services
- Recognizing advanced efforts of green purchasing through Green Purchasing Awards
- Organizing training programmes, seminars, and campaigns
- Conducting outreach of green purchasing toward other countries
National Network for Promoting Green Purchasing

Local Hubs of Green Purchasing Network

- Shiga GPN (since 1999)
- Kyoto GPN (since 2004)
- Mie GPC (since 2003)
- Miyagi GPN (since 2004)
- Sitaima GPN (since 2007)
- Yokohama GPN (2009)
- Hokkaido GPN (since 2008)
- Kyushu GPN (since 2007)
- Osaka GPN (since 2011)

International Green Purchasing Network (IGPN)

- Launched in April 2005
- Based on Sendai Declaration adopted at the First International Green Purchasing Conference in October 2004
- http://igpn.org/about/sendai-declaration-E.html
- Secretariat in Tokyo, Japan. Members in Asia-pacific region, Europe and North America

**Mission**

- To promote the development of environmentally friendly products and services and Green Purchasing activities around the world
- To collect and share information on global Green Purchasing activities, the best examples, know-how, products information, purchasing policies and recent trends
- To harmonise the efforts of Green Purchasing and the development of environmentally friendly products and services from the global viewpoint

Some of the Recent Projects

- **Global Enviro-Legal Portal (GELP):** Developed to provide manufacturers and their suppliers around the world with accurate information on environmental regulations relating to products and ultimately, to catalyze the greening of supply chains, leading to cleaner products and greener markets. [http://www.gelp-igpn.com/igpnenvirolegal/Login/index.asp](http://www.gelp-igpn.com/igpnenvirolegal/Login/index.asp)

- **Capacity-Building on Sustainable Consumption and Production for SMEs in the Philippines:**
  In collaboration with Green Purchasing Alliance Movement (GPAM), Philippines, the project has been developed to reinforce the pilot green public procurement programme of the government and the ecolabelling of selected industries in the Philippines through capacity building of their supply chains. It enables the private sector with valuable knowledge on Sustainable Consumption and Production tools and practices that are relevant to the implementation of Green Purchasing programmes.

- **Study Workshop on Ethical Purchasing and CSR Procurement Guidelines:** A series of on-going workshops which analyses information on the trend, examples, and supply-chain issues related to ethical purchasing and CSR procurement practices in various regions of the world. It aims to develop the guidelines for the dissemination of the practice around the world. [http://igpn.org/csr2012/index.html](http://igpn.org/csr2012/index.html) (in Japanese)

- **Expert Meeting on Green Procurement in Malaysia:** In collaboration with the Asian Productivity Organization (APO), GPN Malaysia and other IGPN members developed the Road Map on Green Procurement on GPP/SPP, which was submitted to the Hon Minister, Ministry of Energy, Green Technology and Water in Malaysia as an additional paper to the Green Technology and Climate Change Council, to be chaired by the Prime Minister of Malaysia.
Japan’s Contribution to Promotion of Green Purchasing

- **10 Year Framework of Programme**
  - Sustainable Public Procurement Programme
    - Group 2A
    - Group 3A
    - Group 4A, 4B
  - Sustainable Lifestyles and Education Programme
    - Programme co-leads

- **Consumer Information Programme**
  - Multi Stakeholder Advisory Committee

- **ASEAN+3 GPPEL**
  - Network Advisory Committee
  - Focal point of Working Group 4B
