

Co-benefits of Climate Change and Sustainable Development in Developing Countries

Date: December 9, 2009

Time: 18:15-19:45

Venue: Niels Bohr

The session focuses on methodological proposals for facilitating CDM in developing countries, especially LDCs, in achieving co-benefit of development and mitigation. How to plan and implement mitigation actions is presented based on international cooperation experiences including assessment of pollution control.

Agenda (as of December 8, 2009)

- | | |
|-------------|--|
