

【Number of Subsidy Projects to Introduce Fuel Cell (FC) Forklifts】

The Ministry of the Environment’s “Project to Promote Fuel Cell Adoption in Industrial Vehicles for Realizing a Hydrogen Society” has supported 67 projects to introduce FC forklifts*1

(FYI) Overview of FC Forklift

- Manufacturer
 - TOYOTA INDUSTRIES CORPORATION
- Features
 - High Environmental Performance: Zero CO2 emissions in operation
 - Improved Efficiency: Continuous operation is possible with approximately 3 minutes to fill
 - External Power Supply Function: 100V AC outlet equipped and can be used as an emergency power source
- Specifications regarding hydrogen
 - Filling pressure: 35 MPa
 - Capacity: 1.2 kg
 - Fill time: 3 minutes
- Other Specifications
 - Uptime: 8 hours
 - Power Capability: 1 kW x 15 hours

2.5t Fuel Cell Forklift * 2

■ : Location of subsidized projects (As of April 2025)
